Jurisdiction

The administration of Stevens-The Institute of Business & Arts (Siba) reserves the right to add, withdraw, or revise provisions or requirements pertaining to course offerings, programs of study, tuition, hours of classes, the college calendar, and other material listed in this publication without notice. However, the administration will notify students, staff, and faculty of all major changes.

Campus Facilities

Siba's 21,000+ square foot campus is located at 1521 Washington Avenue, in a 4-story historical building that was completely renovated in 2010. The campus is situated in the heart of the St. Louis Loft district, within walking distance of attractions such as the City Museum, the main branch of the St. Louis Public Library, St. Louis University Law Library, and numerous parks, coffee shops, boutiques, and restaurants. The campus is accessible by public transportation, and there are a number of public parking lots close by. The interior of the building was designed specifically for Siba's needs, and provides ample space for instruction, study, and social interaction.

Administration/Ownership

Siba is an independent, proprietary institution owned and operated by BGB Associates, LLC, a registered Missouri corporation. The sole shareholder is Cynthia Musterman. The College is organized and authorized to conduct its operation in accordance with the laws of the State of Missouri.

Cynthia Musterman, J.D.,

President

Emilee Schnefke, M.S.

Academic Dean/Registrar

Chrissa Siampos, M.B.A.

Financial Aid Director

Emily Huey, M.S.

Director of Career Services

Sara Dorn, B.A.,

Director of Admissions

Siba's Mission Statement

1. To enable students from a cross-section of socio-economic, ethnic, and academic backgrounds to obtain the education and develop the skills and attributes needed to be successful in their chosen fields of study.
2. To assist our graduates in obtaining meaningful employment related to their respective programs of study and career goals.

Siba endeavors to accomplish its mission by:

1. Providing state-of-the-art facilities and equipment, as well as current and relevant teaching resources;
2. Staffing the college with well-qualified, empathetic, professional staff and faculty who are dedicated to establishing the challenging academic standards, appropriate learning environments, necessary motivational atmosphere, and personal encouragement needed to promote student success;
3. Providing updated, relevant, and practical curricula in all programs offered, helping to assure that our graduates will be well prepared for the highly competitive workplace of the 21st century; and
4. Requiring students to participate in career orientation classes and discussion, thereby helping them to identify and implement their short-and long-term career goals, and by providing ongoing support by our Career Services Department.

Accreditation/Approvals

Accredited By:

Accrediting Council for Independent Colleges and Schools to award Associate of Applied Science and Bachelor of Arts and Bachelor of Science Degrees.

750 First Street, NE, Suite 980
Washington, DC 20002-4241
(202) 306-6780 (telephone)

Certified to Operate By:

Coordinating Board for Higher Education, State of Missouri

Courses Approved For:

Veteran's Education by the Missouri Department of Education

Eligible Institution for Title IV Funds:

- Federal Pell Grant Program
- Federal Family Education Loan Program
- Federal Direct Student Loan Program
- Federal Perkins Loan Program
- Federal Supplemental Educational Opportunity Grant Program
- Federal Work-Study Program
- Iraq & Afghanistan Service Grant

History

Siba was founded as Patricia Stevens College in 1947. Patricia Stevens College was a well-known St. Louis modeling and finishing school for ladies from 1947 until the 1960's when it was first accredited as a school of business. Since accreditation in 1967, the school has continued to evolve to meet the changing demands of the business community, and now offers both Associate's and Bachelor's degrees in a co-educational environment.

The name was changed from Patricia Stevens College to Stevens-The Institute of Business & Arts in 2010, to better reflect the changes in curriculum and degree offerings that have been made in the past 20 years. Siba is owned by Cynthia A. Musterman, who has been with the institution since 1995. Prior to assuming the role of President, Ms. Musterman served as faculty in

the Paralegal Studies program, Dean of the Evening School, and Director of Career Services.

Siba offers the following **Bachelor's Degrees:**

- Business Administration (B.S)
- Graphic Design (B.A)
- Interior Design (B.A.)
- Paralegal Studies (B.A.)
- Retail Management/Fashion Merchandising (B.A.)

Siba offers the following **Associate of Applied Science (A.A.S.)** degrees:

- Business Administration
- Graphic Design
- Interior Design
- Paralegal Studies
- Retail Management/Fashion Merchandising

Philosophy

Siba believes that education and training beyond high school are absolutely vital to the future security and ultimate success of an individual. To that end, all programs relate directly to the skills, knowledge, and attitudes demanded by today's work environments. Development of skills is supplemented by general education studies and supported by in-depth career planning and personal development training, thus enabling graduates to compete favorably in the employment-seeking process of the 21st century. Individual planning sessions are a scheduled part of each student's program.

Class Size

The average class size at Siba is 9 students. Although our largest classroom can accommodate a maximum of up to 26 students, the typical classroom/studio comfortably holds 12-16, and all three computer labs contain a maximum of 10-16 terminals each. These smaller rooms create an atmosphere that allows for easy interaction among classmates and the instructor, and experience has taught us that students thrive better in a smaller environment.

Admissions Criteria

Associate's Degree Programs

Following initial inquiry by the prospective student, a personal interview is arranged by the admissions staff. After that interview, a formal application may be submitted. Prospective students may apply for admission to a Baccalaureate or A.A.S program (See below for admissions criteria for each program). After appropriate credentials are received and reviewed by the admissions committee, a letter advising the applicant of admissions status is forwarded. A rolling-admissions policy enables the admissions committee to accept candidates as they apply and their paperwork is completed.

Siba reserves the right to screen applicants for admission and to make appropriate assessment of each student's potential ability to benefit from training. Siba also reserves the right to deny admission when an applicant's ability to benefit is questionable.

Before enrollment, an applicant must provide documentation to prove that he/she graduated from a state-recognized high school, or that he/she successfully completed a General Educational Development (GED), HiSET, or other state-approved high school equivalency examination. In order for his/her application for admission to be considered, all applicants to any AAS, BA, or BS program must consent to a criminal background check by signing a release form. Applicants may be denied admission for either misdemeanor or felony convictions that include the use of violence and/or weapons, and/or convictions that would be likely to bar them from employment in the field in which the degree program for which they are applying would otherwise qualify them.

The decision of whether to admit an applicant who has a history of one or more misdemeanor or felony convictions will be made by the Director of Admissions, the President, and the head of the academic department in which the applicant is seeking admission.

Siba is an equal opportunity institution and does not discriminate on the basis of age, sex, color, religion, national origin, citizenship, disability, or any other legally protected characteristic.

Bachelor's Degree Programs

Bachelor of Science, Business Administration

In addition to the requirements stated previously for the A.A.S. programs, all students wishing to enroll directly into the B.S. in Business Administration program must possess a minimum high school G.P.A. of 2.5 on a 4.0 scale *or* have achieved a score of least 75% correct on the GED, HiSET, or other state-approved high school equivalency examination.

Applicants who do not meet the above criteria, but meet existing A.A.S. admissions criteria may enroll in the Business Administration A.A.S. program. If, after completing 70 quarter credit hours in the A.A.S. program, the student's G.P.A. is at or above 2.75, the student, upon reapplication, may be admitted into the B.S. program.

If, after earning 70 credit hours, the student's GPA is below 2.75 but above 2.00, a committee comprised of the Department Head, Academic Dean and at least one additional faculty member will meet to determine whether the student is likely to succeed in the B.S. program. After that meeting, the student will either be invited to reapply for the B.S. program or counseled to complete the A.A.S. degree. No student with a G.P.A. of less than 2.0 will be admitted into the B.S. program.

Bachelor of Arts, Graphic Design

All candidates seeking the B.A. degree in Graphic Design must meet the admissions criteria for the A.A.S. program in Graphic Design and will be required to undergo a portfolio review at the end of the quarter in which they will have earned 70 credit hours. The purpose of the portfolio review is to assess the student's potential and ability to successfully complete the upper level (300 and 400) Graphic Design courses.

The portfolio review panel will consist of the Graphic Design Department Head, Academic Dean, and at least one other faculty member.

Possible outcomes of the portfolio review will be:

General acceptance of the student into the upper division B.A. classes;

Probational acceptance of the student into the upper division B.A. classes—students accepted on probation will be re-evaluated after attempting an additional 20-25 quarter credit hours and will either be granted general acceptance at that time or be counseled to complete their A.A.S. degree.

Denial of acceptance into the B.A. upper division courses (student will be counseled to complete the A.A.S. degree).

Bachelor of Arts, Interior Design

All candidates seeking the B.A. degree in Interior Design must meet the admissions criteria for the A.A.S. program in Interior Design and will be required to undergo a portfolio review at the end of the quarter in which they will have earned 70 credit hours. The purpose of the portfolio review is to assess the student's potential and ability to successfully complete the upper level (300 and 400) Interior Design courses.

The portfolio review panel will consist of the Interior Design Department Head, Academic Dean, and at least one other faculty member. Possible outcomes of the portfolio review will be:

General acceptance of the student into the upper division B.A. classes;

Probational acceptance of the student into the upper division B.A. classes—students accepted on probation will be re-evaluated after attempting an additional 20-25 quarter credit hours and will either be granted general acceptance at that time or be counseled to complete their A.A.S. degree.

Denial of acceptance into the B.A. upper division courses (student will be counseled to complete the A.A.S. degree).

Bachelor of Arts, Paralegal Studies

In addition to the requirements stated previously for the A.A.S. programs, all students wishing to enroll directly into the B.A. in Paralegal Studies program must possess a minimum high school G.P.A. of 2.5 on a 4.0 scale *or* have achieved a score of least 75% correct on the GED, HiSET, or other state-approved high school equivalency examination.

Applicants who do not meet the above criteria, but meet existing A.A.S. admissions criteria may enroll in the Paralegal Studies A.A.S. program. If, after completing 70 credit hours in the A.A.S. program, the student's G.P.A. is at or above 2.75, the student, upon reapplication, may be admitted into the B.A. program.

If, after earning 70 credit hours, the student's GPA is below 2.75 but above 2.00, a committee comprised of the Department Head, Academic Dean and at least one additional faculty member will meet to determine whether the student is likely to succeed in the B.A. program. After that meeting, the student will either be invited to reapply for the B.A. program or counseled to complete the A.A.S. degree. No student with a G.P.A. of less than 2.0 will be admitted into the B.A. program.

Bachelor of Arts, Retail Management/ Fashion Merchandising

In addition to the requirements stated previously for the A.A.S. programs, all students wishing to enroll directly into the B.A. in Retail Management/Fashion Merchandising program must possess a minimum high school G.P.A. of 2.5 on a 4.0 scale *or* have achieved a score of least 75% correct on the GED, HiSET, or other state-approved high school equivalency examination.

Applicants who do not meet the above criteria, but meet existing A.A.S. admissions criteria may enroll in the Retail Management/ Fashion Merchandising A.A.S. program. If, after completing 70 credit hours in the A.A.S. program, the student's G.P.A. is at or above 2.75, the student, upon reapplication, may be admitted into the B.A. program.

If, after earning 70 credit hours, the student's GPA is below 2.75 but above 2.00, a committee comprised of the Department Head, Academic Dean and at least one additional faculty member will meet to determine whether the student is likely to succeed in the B.A. program. After that meeting, the student will either be invited to reapply for the B.A. program or counseled to complete the A.A.S. degree. No student with a G.P.A. of less than 2.0 will be admitted into the B.A. program.

Credit Transfer to Stevens-The Institute of Business & Arts

During the admissions process, applicants may request that credits earned at another post-secondary educational institution be transferred to the degree program they wish to complete at Siba.

All requests for transfer of academic credit must be accompanied by official transcripts from institution(s) previously attended and those credits will be evaluated by the Academic Dean on an individualized basis to determine whether the coursework aligns with competencies Siba requires in the applicant's degree program.

Only courses taken at accredited post-secondary institutions where the student has earned a grade "C" or better will be considered for transfer.

There are no fees associated with the acceptance of transfer credits from another institution, and tuition adjustments will be made for any transfer credits that are accepted.

Transfer credit will be added to the student's accumulated credit hours but **will not** be calculated in the student's grade point average (GPA).

Experiential Credit

Siba allows applicants the opportunity to earn experiential credit for the following courses:

- G101 College Mathematics
- B103 Intro to Windows/Word Processing
- B104 Spreadsheets

- B106 Database
- B112 Business Communications
- B113 Accounting I
- B212 Human Resource Management
- B214 Accounting II
- D101 Foundations of Interior Design
- D113 CAD I
- D115 Construction Docs/Bldg Tech & Codes
- D201 Design Practice
- D213 CAD II
- F101 Introduction to Retailing I
- F102 Introduction to Retailing II
- F113 Visual Merchandising
- B220 Meeting & Event Planning

To be awarded experiential credit for G101, B103, B104, B106, D113 & D213, the applicant must pass a diagnostic test.

To be awarded experiential credit for B112, the applicant will be given a list of documents to compose and format, which will then be graded by a member of the business faculty to determine if the student's competency is sufficient.

To be awarded experiential credit in B113, B212, B214, D101, D115, D201, F101, F102, F113 and/or B220, the applicant must provide verifiable documentation that he/she has sufficient workplace training and/or experience in those subject areas. All documentation submitted by the applicant will be analyzed by a member of the department in which the course is offered and a determination will be made as to whether experiential credit for the course should be granted.

There will be a \$250 fee for each course in which an applicant is awarded experiential credit.

Any experiential credit awarded will be added to the student's accumulated credit hours, but will not be calculated in the student's grade point average (GPA).

Maximum Allowances of Transfer and/or Experiential Credits

The amount of transfer credits and/or experiential credits that an applicant wishes to apply to his/her degree program at Siba cannot

exceed 75% of the quarter credit hours (or their equivalent) required for that degree program.

Credit Transfer to Another Institution

Some graduates decide at the time of graduation, or at a later date, to further their education at another college or university. Course and degree transferability, regardless of the institutions involved, **is always determined by the accepting educational institution.**

Graduates or students who are considering transferring from Siba to another institution should inquire at the Admissions Office of the college or university to which they wish to transfer, and ask for an evaluation of their Siba transcripts (along with any other transcripts they may have) for the purpose of transferring those credits to that institution.

If a Siba student or graduate is interested in transferring credits or a degree to another institution, the Office of the President will supply the necessary information and documentation that may aid the student in receiving academic credit at another institution. Interested students should talk with the President, who is the designated staff person responsible for working with students in the transfer of credit earned at Siba to another institution.

Student Classification

Regular Students

A student who is enrolled in a Bachelor's or Associate's Degree program and has graduated from a secondary school or has earned a state high school equivalence certificate (GED, HiSET, etc.) is classified as a *regular student*. A student transferring from another institution may be admitted with advanced standing if credits to be transferred are applicable to the program being taken at Siba; such a student is also classified as a *regular student*.

Non-Regular Students

A person enrolled in individual courses within particular programs, but not registered for an entire program curriculum, is classified as a *non-regular student*. *Non-regular students* do not qualify for Title IV Funds.

Audit Student

A student may select to audit a course, which means that the student attends class but is not required to hand in assignments or take examinations and does not receive a grade or credit for the course. A student may register to audit a course providing space is available and he/she gets approval from the course instructor and the President's Office. There will be no tuition charge for the *regular student* who audits a course; tuition for a *non-regular student* who audits a class will be based on a credit-hour calculation. The *audit student* does not qualify to receive financial aid.

Financial Aid

Stevens-The Institute of Business & Arts welcomes applications from students who would be unable to attend college without some type of financial assistance. Complete details are available through the Financial Aid Office. Immediately following is a brief description of available financial aid for those who qualify.

Federal Pell Grants

Amounts vary depending upon need. These are grants and are not repaid.

Federal Direct Student Loan Program

Amounts of loans vary and are determined by required needs tests. Repayment of loans and assessment of any interest may or may not be deferred until six months after graduation or leaving school, depending on the type of loan.

Direct PLUS Loan Program

Parents may borrow up to the total cost of attending college, minus any financial aid the respective students receive. Repayment of principal and interest begins shortly after funds are disbursed.

Quarterly Tuition & Textbook Rental/Resources Fee

Siba charges tuition and textbook rental/resources fees by the quarter and expects to be paid by the quarter, with no interest charges. All students will be provided with books on the first day of class.

Scholarships

Siba accepts all cash scholarships from schools, churches, civic groups, and other organizations. Created by community members who support Siba's mission and contributions to the community, Siba Scholarship Fund (SSF) is a 501(c)(3) non-profit organization operated by a Board of Directors independently from Stevens-The Institute of Business & Arts. SSF awards scholarships to Siba students based using academic achievement and/or financial need as criteria. Applications are available at the front desk or online at www.siba.edu, and can be submitted year-round.

Borrowing Extra Money

Students who wish to borrow money beyond the cost of tuition may do so for education-related expenses only. Approved uses include living expenses, transportation costs, learning materials, and school supplies. For first-time, first-quarter students, these extra funds will be available for disbursement after the 30th day of the quarter. For returning students, the extra funds will generally be available after the second week of each quarter, or, if the student applies for the funds during a quarter, approximately 30 days after the application is completed. These funds will be paid to students in the form of a check, and will be made available in the Financial Aid Office.

To be considered for financial aid through any of these programs, the first step is to file a *Free Application for Federal Student Aid* (FAFSA). This form, designed by the U.S. Department of Education, must be completed by the student and is available online at www.fafsa.ed.gov.

Class Hours/Credit

Classes are scheduled Monday through Thursday from 8:00 a.m. to 9:30 p.m. Credit hours are determined using a ratio of:

10 Didactic/Lecture class hours=1 quarter credit hour
20 Supervised Laboratory hours=1 quarter credit hour
30 internship/externship hours=1 quarter credit hour.

Student Records

Records maintained for each student include his/her application for admission, enrollment agreement, proof of high school graduation or its equivalent (GED, HiSET), official transcripts from any post-secondary schools previously attended, current Siba transcript, attendance records, academic awards/achievements, financial aid documents, and student account ledger. The college's records policy is in compliance with the *Family Educational Rights and Privacy Act of 1973* and its subsequent revisions.

Start Dates

A new term begins four times each year: in January (Winter Quarter), April (Spring Quarter), June (Summer Quarter) and October (Fall Quarter). Students should refer to the Siba Academic Calendars on pages 72-73 of this *Catalog*.

Orientation

Orientation for new students is held prior to the beginning of each session. All new students are required to attend orientation. Orientation allows students to begin to bond with each other as they learn about the opportunities, expectations, and responsibilities of being a student at Siba. They will meet administrators and faculty members, review the *Catalog*, become familiar with the campus, be introduced to college policies, consider parking options, receive their final class schedules, etc.

Grading System

Grades are issued at the end of each quarter and become a part of each student's permanent transcript. Grades are based on individual student performance as determined by the respective instructors. Grades are used to evaluate a student's academic progress. Letter grades are used and represent the following class performance or credit awarded:

A	= Distinguished Achievement
B	= Superior Achievement
C	= Average Achievement
D	= Marginal Passing Grade
F	= Failure
EC	= Experiential Credit
P	= Pass

W	=	Withdrawal
TR	=	Transfer Credit
R	=	Repeat

Numerical values, called “grade points,” are assigned to each grade. Siba uses the 4.0 grade point system. Each student’s Grade Point Average (GPA) is calculated by using the following conversion of grade points to letter grades:

A = 4.00 points	C = 2.00 points
A- = 3.67 points	C- = 1.67 points
B+ = 3.30 points	D+ = 1.30 points
B = 3.00 points	D = 1.00 points
B- = 2.67 points	D- = 0.67 points
C+ = 2.30 points	F = 0.00 points.

No grade points are awarded for EC, P, W, or TR grades or credits.

Course Failure

Any student who fails a *required* course must repeat that course; a passing grade is required before a degree will be awarded. Any *non-required* course that is failed may not have to be repeated; however, the student should be certain to take and pass the courses necessary to maintain satisfactory academic progress and to meet graduation requirements. Students will be charged tuition on a per-credit-hour basis for classes that they must or choose to repeat.

Erroneously Reported Grades

If proof exists that a grade reported on a permanent record is in error, the faculty member responsible shall submit a *Change of Grade Form* containing justification for the change to the Academic Dean. If sufficient cause for the change is found, the change will be reported in writing and the appropriate grade change made in the permanent record. Any student who wishes to dispute a grade must do so, *in writing*, no later than 45 days after the disputed grade was entered on the student’s transcript.

Independent Study

Taking courses by independent study is seldom permitted at Siba. If, for some very unusual reason, administration and/or faculty members believe that a student’s interests can best be

served by taking a particular class by independent study, the instructor must prepare a proposed course of study, including attendance expectations and grading criteria, for approval by the President or Academic Dean.

Academic Dishonesty

Plagiarism consists of passing off the ideas and words of another as one’s own and is a serious form of academic dishonesty. Members of the faculty expect that essays, research papers, graded assignments, and examinations of students be the product of the student whose name appears on the work. Every written assignment must credit the sources from which information is obtained and all direct quotations must clearly credit their author or source. Students should consult faculty members when particular questions arise as to when and how properly to acknowledge the work of others within a student’s own oral or written expression.

Cheating is defined as the use of notes, slips, copying, or any other illegal means to give or receive answers during examinations. Any student who gives or receives help in a quiz or exam or is involved in unethical practices or academic dishonesty in fulfilling the required assignments of a course will receive an “F” for that exam or assignment.

Any form of academic dishonesty is considered to be a serious form of student misconduct that may be punishable by expulsion from the college.

Dropping/Adding Classes

Permission to drop or add a class must be secured from the Academic Dean not later than the last day of the second week of instruction each term. Such a change will not appear on the student’s transcript. Students who drop classes prior to the deadline will not be charged tuition for the dropped class(es).

Withdrawal from Classes

If a student withdraws from a class after the last day of the second week, but before the last day that the class is scheduled to meet, the student’s transcript will reflect a “W” (withdrawal) for that particular class. If a student fails to attend a

class for three weeks in a row, he/she will be administratively withdrawn from the class, and his/her transcript will reflect a “W” (withdrawal) for that particular class. Students who do not withdraw from a class prior to the last class meeting (and do not qualify for administrative withdrawal) will receive a grade of “A,” “B,” “C,” “D,” or “F.” Students will be charged tuition for all classes from which they are voluntarily or administratively withdrawn.

Students changing their schedules need to be very careful about maintaining satisfactory academic progress, meeting required graduation criteria, and carrying the required number of courses to qualify for federal financial aid. Any student wishing to drop, add, or withdraw from a class should contact his/her Academic Dean.

General Education

Siba’s curriculum is specifically designed to provide students with the skills and the knowledge needed for meaningful employment in the respective fields of their choice. General education courses are an integral part of the well-rounded individual and provide the foundation for productive careers and continuing education after graduation. The courses are offered to give students a selection of classes that will enhance their communication and critical thinking skills, their ability to work effectively with others, their consciousness for ethical behavior, and a greater sensitivity for the concerns of a diverse society. A description of each of these classes is found on pages 59-63 of the *Catalog*

Course Numbering System

- All Freshman & Sophomore courses are identified as 100 and 200 level courses, respectively.
- All Junior and Senior courses are identified as 300 and 400 level courses, respectively.
- Courses preceded with a “B” are Business courses.
- Courses preceded with a “D” are Interior Design courses.
- Courses preceded with a “GD” are Graphic Design courses.
- Courses preceded with an “F” are Retail Management/Fashion courses.

- Courses preceded with “LEG” are Paralegal Studies courses.
- Courses preceded with a “G” are General Education courses
- Courses preceded with a “C” are Career Planning courses.

Student Services

Career Services

Stevens-The Institute of Business & Arts offers all graduates a full range of career services, including:

1. Career planning and training to assist with objective and intelligent decision-making during the job-seeking process, including interviewing techniques;
2. Development of written materials associated with seeking employment;
3. Assistance with scheduling interviews with potential employers; and
4. Lifetime career services for alumni.

To be eligible for assistance, students must meet established academic guidelines (minimum 2.0 GPA). Student records will be released in association with the employment process only with the written permission of the student. **It must be understood that, while career services are offered, the college does not guarantee employment or salary levels.**

Temporary and part-time career services assistance is also offered to students of the college who are in good standing and desire to work while attending school. The college will also assist students who need help in obtaining an approved internship/externship program.

Counseling

The low student/faculty ratio provides the opportunity for extensive communication between faculty/staff and students. As an on-going part of their educational experience, students will receive guidance in career planning; assistance with addressing personal and family concerns; and direction in developing study skills and appropriate workplace attitudes.

Extra-Curricular Activities

Life beyond the classroom is important. The college administration and Siba Student Government plan a variety of events available to students, including social, charitable, and cultural activities.

Wardrobe/Dress Code

Siba believes that it is important for our students to appear well-groomed and professionally dressed at all times while on campus. Siba has general dress-code guidelines for all students, which are published on page 68. Students who fail to comply with the dress code may be dismissed from that day's classes and/or sent home to change into proper attire. Repeat offenders will be considered "insubordinate" under the Student Code of Conduct (See page 66 of the *Catalog*) and thus be subject to disciplinary action which may include suspension or even expulsion.

Graduation Requirements

In addition to the academic requirements listed on pages 15-16 and 17-32 of the *Catalog*, students must complete the following to be eligible for graduation:

1. An exit interview with the Financial Aid Director;
2. The *Graduate Survey* included in the graduation packet issued by the Academic Dean or her designee in the student's final quarter prior to graduation; and
3. An exit interview, placement information and release form(s) issued by the Career Services Director.

Graduate Credentials

Bachelor of Science Degree

Awarded for completion of the baccalaureate program in Business Administration. Qualifies student for career services assistance

Bachelor of Arts Degree

Awarded for completion of the baccalaureate programs in Graphic Design, Interior Design, Paralegal Studies, and Retail Management /Fashion Merchandising. Qualifies student for career services assistance

Associate in Applied Science Degree

Awarded for completion of an A.A.S program. Qualifies student for career services assistance.

Quarterly Academic Honors

President's List

Recognizes students achieving quarterly GPA of 3.65 or better with no more than two days absent.

Dean's List

Recognizes students achieving a quarterly GPA of 3.00 or better with no more than three days absent.

4.0 Award

Recognizes students achieving a perfect GPA for all classes in a given quarter.

Perfect Attendance

Recognizes students achieving a perfect attendance record for all classes in a given quarter.

Graduate Honors/Distinctions

Cum Laude

Awarded to graduates of a baccalaureate program with a cumulative G.P.A. of 3.5-3.79.

Magna Cum Laude

Awarded to graduates of a baccalaureate program with a cumulative G.P.A. of 3.8-3.9.

Summa Cum Laude

Awarded to graduates of a baccalaureate program with a cumulative G.P.A. of 4.0.

Federal Aid Eligibility Requirements/Satisfactory Academic Progress

Federal regulations require Siba to establish a satisfactory academic progress (SAP) policy to ensure all students are making reasonable progress toward completing their degree. In determining whether a student is making satisfactory academic progress, there are two categories of minimum requirements that must be met: (1) the percentage of classes successfully completed in relation to the number of classes attempted (Rate of Progress), and (2) cumulative grade point average (CGPA).

SAP Review

The academic records of each student will be reviewed at the end of each academic year (one academic year equals three quarters) of enrollment to determine if the student is in compliance with Siba's SAP policy.

SAP Requirements

The chart immediately following identifies in three columns the specific checkpoints during the student's program that minimum GPA requirements and minimum percentage of courses successfully completed compared to those attempted, must be met, in order for a student to be in compliance with Siba's SAP policy.

Associate Degrees:

<u>Credits Attempted</u>	<u>Required Rate of Progress</u>	<u>Required CGPA</u>
0-45	55%	1.7
46+	66.67%	2.0

Bachelor Degrees:

<u>Credits Attempted</u>	<u>Required Rate of Progress</u>	<u>Required CGPA</u>
0-45	55%	1.7
46-90	65%	1.85
91+	66.67%	2.0

Failure to Maintain SAP

Students failing to meet the established guidelines must file an appeal to his/her Academic Dean. The appeal must be based on one of the following: student injury or illness, the death of a relative, or similar special circumstance. The appeal must explain why SAP standards were failed and what has changed that will allow the student to make SAP at the next evaluation. The Academic Dean will make the determination whether to grant or deny the appeal.

If the appeal is granted, the Academic Dean will develop an academic plan that, when followed, will insure that the student will meet the standards by a specific time. Students who fail the SAP check after the end of the probationary payment period may not continue to receive aid, and will be dismissed from the college.

Maximum Time Frame

The length of a Bachelor's degree at Siba ranges is 182 quarter credit hours (See pages 17-27 of the *Catalog*). The length of Associate of Applied Science degrees at Siba ranges from 90-94 quarter credit hours (See pages 28-33 of the *Catalog*). The maximum time frame permitted for completing a program is determined by multiplying the number of credit hours in the degree by 1.5 or 150%. Students who exceed their maximum timeframe of 150% of the credit hours in their degree before completing that degree will no longer be eligible for federal financial aid.

If a student changes his/her program of study or increases the credential of his/her program (e.g. enrolls in a B.A. or B.S. after being enrolled in an AAS program), the maximum time frame of the new program or increased credential will be calculated by using the number of credits required to complete the new program or increased credential. The credit hours required to complete the new program or credential will be adjusted (and accordingly, so will the maximum time frame to complete) by any credit hours that are being transferred into the new program or increased credential, whether they be from Siba or another institution (See Transfer of Credits policy on page 7). All attempted credit hours from the previous Siba program or credential that are required by the new program or increased credential will be used to calculate whether the student is making SAP.

Transfer Hours

Credit hours accepted from another institution will be used in the student's rate of progress and maximum timeframe calculations, but not their cumulative grade point average.

Failed Courses

Failed courses must be repeated until required competencies are met. When a failed course is repeated and passed, the passing grade will be used in calculating CGPA, replacing the previous 0.0 or "F" calculation. However, all credits attempted will be used in the student's rate of progress and maximum timeframe calculations. Students will be charged additional tuition when they fail a course and are required to repeat it. Students who have passed a course but wish to repeat it may do so free of charge, provided there is an open seat in the class. The highest grade earned in repeated courses will be the grade used in the CGPA calculation.

Course Withdrawal

When a student withdraws from a course after the 2-week drop/add period, the credits from that course will be included in the student's rate of progress and maximum timeframe calculations. The "W" grade will not affect the student's CGPA calculation.

Graduation requirements include a minimum GPA of 2.00 and earning the required credits for the respective program of study.

Revised 12/2016

Siba's Refund Policy

When a first-time, first-quarter student of Siba gives written notice of withdrawal within 30 calendar days of the first day of their initial quarter of attendance, all tuition and fees except the application fee will be refunded. Such notice of withdrawal must be in written form, postmarked, hand-delivered, or emailed on or before the 30th day of the quarter in question, and directed to:

Ms. Cynthia Musterman, President
Stevens-The Institute of Business & Arts
1521 Washington Avenue
St. Louis, MO 63103
CMusterman@siba.edu

When a first-time, first-quarter student withdraws from classes in his/her initial quarter after the 30th calendar day, but before completing 50% of the term, Siba will retain the application fee and textbook rental fee, and make a pro-rata refund of unearned tuition. For students terminating training after completing more than 50% of the initial term, Siba will retain the entire contract price for the initial term of enrollment including stated tuition, textbook rental fee, and other charges. Notice of withdrawal must be in written form, postmarked, hand-delivered, or emailed, and directed to the student's Academic Dean.

After the initial term of attendance, the following refund policy applies:

- When withdrawal occurs within the first 10% of the term, the College will retain 20% of the stated tuition, the application fee, and the textbook rental fee.
- When withdrawal occurs after 10% of the term has passed but before 25% of the term has passed, the College will retain 45% of the stated tuition, the application fee, and the textbook rental fee.
- When withdrawal occurs after 25% of the term has passed, but before 50% of the term has passed, the College will retain 70% of

the stated tuition, the application fee, and the textbook rental fee.

- When withdrawal occurs after 50% of the term has passed, the College will retain 100% of the stated tuition, the application fee, and the textbook rental fee.

Note: Tuition is charged by the term. Tuition refunds are calculated by the number of weeks in the term, minus the number of calendar weeks a student attended classes. Any class hours attended during a calendar week constitutes an entire calendar week for refund calculation purposes.

After the first day of class, students of legal majority, parents, or legal guardians are asked to submit written notice of cancellation or withdrawal via email or hand-delivery to their Academic Dean or the Financial Aid Director. The last date of recorded attendance will be used in determining the refund, if any. The cost of books loaned to the student will be considered excludable charges in refund calculations if books have not been returned in good condition within 20 calendar days of the student's last day of attendance.

Unofficial Withdrawals: In lieu of written notice, an unexplained absence for more than fifteen (15) business days constitutes constructive notice of cancellation to the College. Refunds, if due, will be made to the student within 45 calendar days of official withdrawal or 45 calendar days of the date of determination of withdrawal if the student does not officially withdraw. If the student cannot be contacted, the refund will be returned to the appropriate financial aid program.

When a student drops a class under the drop/add guidelines of the *Catalog* during the first two weeks of the term, the student will not be charged for the dropped class. If any student withdraws from a class after the first two weeks of the term, he/she will be charged the full amount of tuition for that class, and financial aid will not be adjusted.

Revised 09/16

Return to Title IV Funds Policy

Siba is required by the U.S. Department of Education to perform a return to Title IV funds calculation when a student who is participating in the Title IV Program withdraws, officially or unofficially, from the college.

The procedure for a student to officially withdraw from classes prior to the start of the term, or during the term, is to notify the Academic Dean or Financial Aid Director in writing, via standard mail, email or hand-delivery. If a student withdraws prior to the start of the quarter, either via written notification or failure to attend any classes, all Title IV funds will be returned on their behalf to the Direct Loan and/or PELL program. There will be no tuition owed to Siba for that quarter or any unattended quarter thereafter.

If a student withdraws after attending classes in a particular quarter, his/her unearned Title IV funds will be returned on a pro-rata basis, using the U.S. Department of Education's required calculation system, which is based on the number of days the student attended classes during the term in question.

In lieu of written notice, an unexplained absence for more than fifteen (15) business days after at least one day of attendance in a particular term constitutes constructive notice of cancellation to the College. The last date of recorded attendance will be used in determining the refund, if any. Refunds, if due, will be made within 45 calendar days of official withdrawal or 45 calendar days of the date of determination of withdrawal if the student does not officially withdraw.

If a student officially withdraws from the College or the Financial Aid Department is notified by the Registrar's Office that a student has been administratively withdrawn after an unexplained absence of more than fifteen (15) business days, the Financial Aid Director will determine the student's last date of attendance and/or date of notification of withdrawal. The Financial Aid Director will then use the U.S. Department of Education's required calculation database to determine how much of the student's Title IV funds will be returned. That calculation system is based on the number of days in the quarter and the number of days the student attended classes. For example, the typical term at Siba has 73 days. If a student withdraws on the 21st day, thus earning 27% of his/her Federal aid, Siba must return the unearned 73% of the funds.

The order in which Title IV program funds are returned is as follows: (1) Unsubsidized loans; (2) Subsidized loans; (3) PLUS loans; (4) PELL Grants.

Federal funds may not cover all unpaid institutional charges due to the institution upon withdrawal. In other words, the student will still owe the college the difference between the tuition charges incurred under Siba's institutional refund policy (see page 15 of the Catalog) and the tuition that Siba was entitled to retain after implementing the Return to Title IV Funds policy.

The condition under which a student would be eligible for a disbursement of Title IV funds upon withdrawal from Siba is known as a post-withdrawal disbursement. If the student is eligible for a disbursement, but withdraws before the disbursement is posted to his/her account, the student will be notified by the College that he/she is eligible for a post-withdrawal disbursement. The student then has the opportunity to accept or decline the post-withdrawal disbursement. If no response is received by the student within a reasonable amount of time, the post-withdrawal disbursement would not be made. Students who have any questions about this policy should contact the Siba Financial Aid Director, Chrissa Siampos, at 314.421.0949 or CSiampos@siba.edu.

Revised 07/16

Baccalaureate Programs

Business Administration Bachelor of Science. (Day and Evening Classes)

Siba's Bachelor of Science in Business Administration program is designed to provide graduates with a comprehensive business education that includes management, marketing, finance, international transactions, accounting, economics and computer skills, as well as the social science, communication, liberal arts, and humanities courses that broaden perspective. Employment opportunities for graduates include entry to mid-level positions in marketing, advertising, accounting/bookkeeping, customer relations, operations, human resources, management, sales, and event planning.

Academic Requirements:

Course #	Subject	Credit Hrs.	Clock Hrs.
B103	Introduction to Windows/Word Processing	3.0	40
B104	Spreadsheets	3.0	40
B105	Presentation Graphics	3.0	40
B106	Database	3.0	40
B108	Advertising I	4.0	40
B110	Business Law I	4.0	40
B112	Business Communications	4.0	40
B113	Accounting I	4.0	40
B120	Introduction to Marketing	4.0	40
B201	Introduction to Business	4.0	40
B203	Advanced Windows Applications	3.0	40
B205	Advanced Graphics	3.0	40

G208	English Composition II	4.0	40
G216	Psychology of Consumer Behavior	4.0	40
G320	Modern Social Problems	4.0	40

Additional General Education and Other Elective Requirements:

	Credit Hours	Clock Hours
In addition to the above, the student must complete 16 credit hours of general education courses described on pages 59-63 of the <i>Catalog</i> .	16.0	160
To meet the additional 8.0 credit hours of other elective requirements beyond the general education criteria, students are encouraged to participate in an internship or externship, and may select, in consultation with the Academic Dean, from any other courses being offered to complete graduation requirements.	8.0	80

Graduation Requirements:

Full-time—12 quarters (120 weeks)	182.0	1920
¾ time—20 quarters (200 weeks)		
½ time—26 quarters (260 weeks)		

Graphic Design Bachelor of Arts. (Day and Evening Classes)

Siba's Bachelor of Arts in Graphic Design is designed to provide graduates with a comprehensive education that includes the principles of design, visual communication, color, typography, illustration and problem-solving, as well as the social science, communication, liberal arts, and humanities courses that broaden perspective. Opportunities for employment include entry to mid-level graphic design positions in print, animation, art direction, illustration, and multimedia. (Internship/externship options providing real-world experience are highly recommended.)

Academic Requirements:

Course #	Course Name	Credit Hrs.	Clock Hrs.
GD104	Form & Space (3-D)	3.0	40
GD105	Design Fundamentals (2-D)	3.0	40
GD110	Drawing I	3.0	40
GD111	Drawing II	3.0	40
GD112	Perspective Drawing	3.0	40
GD115	Figure Drawing I	3.0	40

Paralegal Studies B.A. (Evening Classes)

The Paralegal Studies Bachelor of Arts program is designed to prepare graduates for positions in all areas of the paralegal community. Students will be exposed to extensive coursework in legal topics as well as general education courses designed to hone communication, analytical, logic, critical thinking and writing skills, all of which are essential to a successful legal professional. Graduates of this program will be equipped to compete for entry to mid-level paralegal and legal assistant positions in law firms, corporate legal departments, human resources, compliance departments, insurance companies, and real estate firms, just to name a few. (Internships/externships are highly recommended in this program).

Course Descriptions

Business Courses

B103 Introduction to Windows/Word Processing

(3.0 credit hrs., 40 clock hrs.) This course introduces students to the basic components of the windows interface, how to manage files and folders, and how to use the common tools and programs available in Windows. Using Microsoft Word, students will learn to process text, edit text, use writing tools, format characters, place and align text, format paragraphs and set tabs, use draw, print documents and envelopes and manage files. Students learn to create footnotes and endnotes, charts, forms, graphics and special characters, macros, mail merge, and reference documents. Classroom projects will include comprehensive use of word processing skills in creation and development of various forms of documents. Prerequisite: None.

B104 Spreadsheets

(3.0 credit hrs., 40 clock hrs.) Students will learn to create spreadsheets for many business applications such as budgets, marketing and sales reports, expense reports, invoices and purchase orders, basic financial statements, and spreadsheet information for use in intranet/internet. Students will receive hands-on instruction on how to use spreadsheets for accounting/financial statements, data analysis, statistical tables, amortization schedules, forecasts, personnel records, and lists. Prerequisite: None.

B105 Presentation Graphics

(3.0 credit hrs., 40 clock hrs.) Students learn to create professional looking presentations and administrative documents with specific text content and design criteria. Through the use of *Microsoft Publisher* and *Microsoft PowerPoint*, students will develop the skills to produce camera-ready copy for simple publications and students will receive instruction in processing of words (keying in of data), outlining, graphing, drawing tools, clip art, and delivery of presentation. Prerequisite: None.

B106 Database

(3.0 credit hrs., 40 clock hrs.) Students learn to plan and design databases for storing information on the computer, how to query a table and find and display information, and how to generate simple forms and reports to view or print out the information needed. Prerequisite: None .

B107 Real Estate

(4.0 credit hrs., 40 clock hrs.) Students develop an understanding of the real estate business. Includes study of regulations, legal aspects, ownership of real property, transfer, evidence of assurance of title, landlord/tenant relationships, mortgages, and responsibilities. Prerequisite: None.

B108 Advertising I

(4.0 credit hrs., 40 clock hrs.) This class is oriented toward practical experience in analyzing, understanding, and creating advertising based on real world examples. Students will be expected to observe and report on advertising they encounter day-to-

day in order to relate it to the textbook and handout materials. Upon completion of the course, students will be familiar with the basic terminology relating to advertising strategies, development, and production. Prerequisite: None.

B109 Advertising II

(4.0 credit hrs., 40 clock hrs.) Emphasis on uses of major advertising media including television, radio, newspapers, and magazines. Prerequisite: B108.

B110 Business Law I

(4.0 credit hrs., 40 clock hrs.) Familiarizes students with the various legal concepts applicable to businesses in general. Presents an overview of the U.S. legal system and legislative systems, criminal law, torts, contracts, UCC sales, commercial paper, and negotiable instruments. Prerequisite: None.

B112 Business Communications

(4.0 credit hrs., 40 clock hrs.) This course examines the principles of communication in the workplace. It introduces students to common formats such as the memo, letters, and reports, and helps students improve writing skills to gain greater mastery of grammar, mechanics and style. Prerequisite: B103 .

B113 Accounting I

(4.0 credit hrs., 40 clock hrs.) Students learn accounting principles for a professional organization through an accounting cycle, including financial reporting. Prerequisite: None.

B120 Introduction to Marketing

(4.0 credit hrs., 40 clock hrs.) Overview of marketing strategy, the marketing environment, consumer buying behavior, research, public relations, and the differences in marketing services and products. Prerequisite: None.

B201 Introduction to Business

(4.0 credit hrs., 40 clock hrs.) This course introduces concepts, methods, activities and philosophy of business in the world today. It covers contemporary trends in business, while introducing the student to the language, principles, and environment of business. Prerequisite: None.

B203 Advanced Windows Applications

(3.0 credit hrs., 40 clock hrs.) Simulation of a working environment where all the application software packages will be used and integrated. Emphasis will also be placed on communication in both written and oral presentations. Prerequisites: B103, B104, B105, B106.

B205 Advanced Graphics

(3.0 credit hrs., 40 clock hrs.) In this course, the student will learn presentation techniques in *Adobe Photoshop*. They will gain experience in using the various tools in producing graphic presentations. Emphasis is on creating compelling and innovative

graphic design solutions, compositional organization, mechanics and effective presentations. Prerequisite: None.

B208 Social Media Marketing

(4.0 credit hours; 40 clock hours) Examines how social media has changed the way businesses promote products, services, ideas and people. Students will gain the necessary knowledge and skills to create and execute effective social media marketing strategies across multiple social media based platforms. Prerequisite: None.

B209 Payroll Accounting

(4.0 credit hrs., 40 clock hrs.) Emphasis is on all aspects of payroll procedures, including wage and salaries, Social Security taxes and benefits, Medicare, federal and state employment insurance and taxes, payroll accounting systems and records, and reporting requirements. Prerequisite: None.

B210 Organizational Behavior

(4.0 credit hrs., 40 clock hrs.) The course focuses on the importance of human dynamics in modern organizations. Instructor and students will explore individual behavior, group processes and organizational dynamics from management and employee perspectives. Prerequisites: B201.

B212 Human Resource Management

(4.0 credit hrs., 40 clock hrs.) The course is designed to introduce students to human resource management theory and principles, beginning with traditional/classical thinking and leading up to the latest trends and future approaches. Prerequisite: None.

B214 Accounting II

(4.0 credit hrs., 40 clock hrs.) Preview of the accounting cycle, accounting for merchandising company, and use of special journals for accounts receivable and payable. Students will complete a simulated merchandising practice set. Prerequisite: B113.

B215 Principles of Economics

(4.0 credit hrs., 40 clock hrs.) Students will explore the practical value of economic analysis as it relates to supply and demand, the theory of the firm, taxation, inflation, unemployment, national income determination, fiscal and monetary policy, economic growth, and international trade and finance. Prerequisite: B201.

B220 Meeting & Event Planning

(4.0 credit hrs., 40 clock hrs.) Students learn a practical approach to the science of planning effective meetings and events. Includes a review of personnel, financial planning, site location, marketing, and program design. Prerequisite: None.

B290 Business Industry Tour Workshop (Chicago, IL)

(1.0-2.0 credit hrs., 10-20 clock hours). This study tour is to provide students with experiential learning opportunities as they explore the different facets of business in professional industries. The students will meet with professionals that work in the areas of Finance, Economics, Marketing and Entrepreneurship. In addition to paying tuition expenses for course credit, students are also responsible for travel expenses. Prerequisite: Permission of Instructor.

B301 Principles of Management

(4.0 credit hrs., 40 clock hrs.) This course introduces students to contemporary principles of management. Course focus and emphasis is on the practical considerations of planning, organizing, decision making, leading and controlling in modern organizations. The course covers each managerial function in detail, while illustrating historic perspectives and today's systematic approach to management. Prerequisite: B201.

B306 Statistics I

(4.0 credit hrs., 40 clock hrs.) This course demonstrates the applicability of statistics in the real world through guided exercises, practical real-world problems, and group projects. Prerequisites: G101 or F103.

B307 International Business

(4.0 credit hrs., 40 clock hrs.) Involves the study of any business transaction between parties from more than one country. Students will examine such activities as buying and selling raw materials, inputs or finished products across borders, operating plants in other countries to take advantage of local resources, and borrowing money in one country to finance operations in a second. International Business is influenced by cultural considerations. Prerequisites: B201 or F101.

B309 Business Law II

(4.0 credit hrs., 40 clock hrs.) Continues the study of the U.S. legal system and legislative systems, employment and agency law, real estate law, bailments, insurance, and consumer and creditor protection. Prerequisite: B110.

B310 Marketing Management

(4.0 credit hrs., 40 clock hrs.) This course examines the marketing system, relationship with the socioeconomic system and reciprocal influences affecting the management of marketing. It studies the trends in the structure of marketing institutions, processes, and practices. Consideration will be given to customer attributes, behavioral characteristics, and how a marketing manager responds to these factors in the design of marketing strategies using research, product development, pricing, distribution structure, and promotion. Prerequisites: B120, and B201 or F102.

B312 Accounting III

(4.0 credit hrs., 40 clock hrs.) The students will learn manufacturing accounting, corporations and partnerships, with emphasis on financial analysis and decision-making. Prerequisite: B214.

B315 Financial Accounting

(4.0 credit hrs., 40 clock hrs.) Students will discover the uses and limitations of financial statements and related information and apply analytical tools in making both business and financial decisions. Topics examined include those related to corporate financial position, operating results, cash flows, and financial strength. Prerequisite: B214.

B317 Finance I

(4.0 credit hrs., 40 clock hrs.) This course is an introduction to the role of financial management in today's business world. Course topics emphasize an understanding of financial statement analysis and ratio analysis to evaluate financial performance, and allocation of resources over time. Prerequisite: B113.

B403 Statistics II

(4.0 credit hrs., 40 clock hrs.) This course covers the concepts and techniques concerning exploratory data analysis, frequency distributions, central tendency and variation, probability, sampling, inference, regression, and correlation. Students will be exposed to these topics and how each applies to and can be used in the business environment. Students will master problem solving using both manual computations and statistical software. Prerequisites: B104, B306.

B405 Strategic Management

(4.0 credit hrs., 40 clock hrs.) This course will enable the student to understand high-level business decisions based on competitive pressures, global marketplace concepts, and availability of resources such as personnel, finances, plant and equipment capabilities and raw materials. The course will also focus on corporate structures and management decision-making. Students will bring together all of their learned functional skills (e.g. accounting, finance, marketing, etc.) and use them to study organizational problems within the context of real-world business case studies. Prerequisites: B301, B310, B317.

B406 Entrepreneurship

(4.0 credit hrs., 40 clock hrs.) This course provides a background in business entrepreneurship. It examines the characteristics necessary to become a successful entrepreneur and covers the information needed to develop a comprehensive effective business plan. Prerequisites: B104, B120.

B408 Operations Management

(4.0 credit hrs., 40 clock hrs.) This course provides students with concepts, techniques and tools to design, analyze, and improve core operational capabilities, and apply them to a broad range of industries. It emphasizes the effect of uncertainty in decision-making, as well as the relationship between high-level financial objectives and operational capabilities. Topics covered include production control, risk pooling, quality

management, process design, and revenue management. Also included are case studies, and a simulation exercise which demonstrates fundamental concepts. Prerequisites: B212, B301, B317.

B410 Advanced Human Resources Management: Application Theory and Practice

(4.0 credit hrs., 40 clock hrs.) This course addresses the behavioral and legal approaches to the management of human resources in organizations. Students study and examine various aspects of Human Resource Management via application of technical and legal aspects of human resource management from a strategic business perspective. The course examines how to manage human resources effectively in the dynamic legal, social, and economic environment currently constraining organizations. Among the topics included are: formulation and implementation of human resource strategy, job analysis, methods of recruitment and selection, techniques for training and development, performance appraisal, compensation and benefits, and the evaluation of the effectiveness of HRM systems. Emphasis is placed on integrating human resource management with the overall business strategy. Prerequisite: B212.

B417 Finance II

(4.0 credit hrs., 40 clock hrs.) This course is a continuation of Finance I. Students will utilize Financial Analysis to Value Assets and Investments, assess risk and make sound financial business decisions. Prerequisite: B317.

B420 Project Management

(4.0 credit hrs., 40 clock hrs.) This course examines various aspects of managing projects in a business environment. The course will include in-depth study of the following project components: project scope definition, time management, cost estimating, quality assurance, resource management, communication modeling, risk assessment, and materials procurement. Students will learn state-of-the-art project management tools and techniques while completing classroom projects. Prerequisite: B104, B106, B201.

B425 Integrated Software Applications

(3.0 credit hrs., 40 clock hrs.) Students develop information technology tools while focusing on realistic workplace problem solving. Projects are presented much like they would be in a real job situation. Prerequisites: B103, B104, B105 and B106.

Interior Design Courses

D101 Foundations of Interior Design

(4.0 credit hrs., 40 clock hrs.) In this introductory course students will discover concepts of design and the role of the designer, and will examine the basic design principles and elements, concepts of design process, spatial relationships, and design as a profession. Students will apply their understanding of these concepts to investigate fully the tools of their trade: floors, walls, ceilings, windows, doors and their materials; wall composition; furniture placement; and the use of accessories. Prerequisite: None.

D103 Architectural Graphics

(3.0 credit hrs., 40 clock hrs.) An introductory course in hand drafting. Emphasis will be placed on drafting tools, line quality, lettering, and visualizing three dimensions in 2-d drawings. Students will complete orthographic drawings and simple house plans and elevations. Prerequisites: None

D104 Furniture Marketing

(3.0 credit hrs., 40 clock hrs.) Students will learn how furniture is designed, constructed, distributed, and retailed to the public. This course will focus on the Interior Designer and the role he/she plays in the marketing and specifying of furnishings for residential and contract markets. Students will create a model of a piece of furniture and develop a marketing plan. Prerequisite: None.

D105 History of Architecture and Design I

(4.0 credit hrs., 40 clock hrs.) Comprehensive study of the progress of architecture and the accompanying evolution of interior spaces from ancient times through the Italian Renaissance. Particular emphasis will be placed on technological, cultural, social, and aesthetic developments, giving context to the specific stylistic differences that distinguish each period. Prerequisite: None.

D106 History of Architecture and Design II

(4.0 credit hrs., 40 clock hrs.) A continuation of D105, topics studied in this course include French Stylistic development, Renaissance through Empire, and the concurrent English periods of Renaissance Tudor through Victorian and the birth of the Industrial Revolution. Emphasis will be placed on technological, cultural, social, and aesthetic developments, giving context to the specific stylistic differences that distinguish each period. Prerequisite: D105.

D107 Residential Design

(3.0 credit hrs., 40 clock hrs.) A project-oriented course, designed to develop the students' knowledge and ability to create residential design projects including floor plans, color schemes, and presentation boards. Prerequisites: D101, D103.

D111 Lighting Design

(3.0 credit hrs., 40 clock hrs.) In this course students will develop an awareness of the aesthetics and functional applications of lighting for residential and non-residential spaces and how to produce lighting schedules, calculate lighting loads, and draw reflected ceiling plans. Prerequisite: D103

D112 Presentation Techniques I

(3.0 credit hrs., 40 clock hrs.) This course will concentrate on developing the student's capabilities in presenting his/her work visually and verbally. Students are introduced to the development of presentation graphic skills using various media, such as marker, pen & ink, colored pencil, and model building will be explored. Emphasis will be placed on guiding the student to use the best methods in presenting design concepts. Prerequisite: D103

D113 CAD I

(3.0 credit hrs., 40 clock hrs.) This is a foundation for the use of computer technology as a tool in drafting and design. This is a hands on course that will offer the student a basic introduction to AutoCAD (Computer Aided Design). Focus will be placed on learning the basic commands and editing/modification tools. Prerequisite: B103 (for RM/FM students) B103 & D103 for Interior Design students.

D114 Universal Design and Aging in Place

(4.0 credit hrs., 40 clock hrs.) This course teaches the relevant codes and standards, common barriers in the health care and home, and demonstrates how to redesign living areas for safety and comfort for older adults with physical limitations that would normally force them from their homes into a health care facility. Prerequisites: None.

D115 Construction Documents, Building Technology, & Codes

(4.0 credit hrs., 40 clock hrs.) Students will learn how to format and read a set of construction documents. They will learn about floor plans, reflected ceiling plans, elevations, sections, and details, and they will become familiar with basic residential and commercial construction: electrical, plumbing, and HVAC systems, and interior finish and materials installation. Students will learn concepts and strategies for addressing public welfare and safety, including the Americans with Disabilities Act and its impact on interior design. Prerequisite: None.

D116 Materials & Resources of Interior Design

(4.0 credit hrs., 40 clock hrs.) An introduction and examination of a variety of finishes and materials for design, including fabrics, wall covering, hard and resilient floor covering, carpet and rugs, wood and plastics, marble and granite, solid surface, tile and more. Students will also learn how to identify the appropriate trade sources for these materials with the possibility of field trips to the sources. Measuring, specifying, and estimating will be emphasized. Prerequisite: None.

D120 Window Treatment Design

(3.0 credit hrs., 40 clock hrs.) The business of custom window treatments encompasses measuring, calculating, designing, construction and installation. Students will learn all of these processes, as well as about products, trends and designs. Students will also learn how to communicate with custom workrooms. Prerequisite: G101.

D200 Commercial Design

(3.0 credit hrs., 40 clock hours) Introduces students to the fundamentals of designing non-residential spaces. Students will be taught the process of planning a restaurant space beginning with client interviews and data collection through research with the goal of developing a working program. Students will be asked to begin the space planning process making use of current information on codes, circulation patterns, appropriate materials selections, and the ADA. Prerequisites: D101, D113.

D201 Design Practice

(4.0 credit hrs., 40 clock hrs.) A study of the practice of interior design as a business, using business procedures, contract documents, projects, pricing, billing, handling complaints, compensation and fees, and public relations. Prerequisite: D101.

D204 Workplace Design

(3.0 credit hrs., 40 clock hours) An introduction to the concepts on which Facilities Planning and Workplace Design relies. Students will be taught the process of data gathering through analysis of client interview material with the goal of creating a set of beginning working documents: program, adjacency matrix and bubble diagrams to fully comprehend the design problem. Students will also be introduced to systems furniture, working with a professional from the field. From this a preliminary set of office typicals will be developed. Prerequisites: D101, D113.

D206 Modern & Contemporary Architecture and Design

(4.0 credit hrs., 40 clock hrs.) This course is an in-depth look at the major figures in architecture of the Modern movement and after. Special attention will be paid to the Bauhaus and Cranbrook communities, as well as individuals of merit that have formed the horizon of architecture in the world today. Prerequisite: D205 or permission of instructor.

D207 Advanced Residential Design

(3.0 credit hrs., 40 clock hrs.) Content will focus on residential establishments, both new and renovated. Students will thoroughly plan the utilization of the interior of each of these types of construction. Prerequisites: D107, D112, D115, D116.

D211 Presentation Techniques II

(3.0 credit hrs., 40 clock hrs.) Concepts in design presentations will be refined and expanded to include the use of electronic media, i.e.: Adobe Design Suite Software Photoshop, Illustrator, InDesign, Behance, and AutoCAD. Skills taught will include the rendering of floor plans, perspectives, elevations, logos, creative writing, and portfolio graphics. Prerequisites: GD175, D112, D113

D213 CAD II

(3.0 credit hrs., 40 clock hrs.) This class will focus on allowing the student to improve their CAD skills. Basic and intermediate commands will be reviewed and more complex projects will be assigned for intermediate level applications. Working drawings associated with professional practice will be assigned. Prerequisite: D113.

D214 CAD III

(3.0 credit hrs., 40 clock hrs.) This course will introduce the student to BIM technology (Building Information Modeling) with Revit Architecture software. The student will explore early design concepts, forms, and modification techniques completed automatically across the project. Students will learn to produce 2-D and 3-D drawings, apply materials and accurately produce construction documents. Prerequisite: D213.

D215 Interior Renovation

(3.0 credit hrs., 40 clock hrs.) A study of the elements to be considered in updating a structure with historical significance. Space planning sensitive to existing infrastructure, code requirements and materials selection is addressed. Particular emphasis will be placed on synthesizing design solutions with knowledge of historical periods.

Prerequisites: D107, D115, D116, GD175.

D217 Kitchen and Bath Design

(3.0 credit hrs., 40 clock hrs.) Students will learn the basics of residential kitchen and bath design, including how to work with standard cabinet nomenclature, plumbing basics and fixture layout, appliance selection and the latest trends with accessories. Students will develop drawings by hand and using 20/20 according to NKBA guidelines. This course may include field trips to showrooms and job sites. Prerequisite: D107.

D300 Environmental Design

(3.0 credit hrs., 40 clock hrs.) An advanced class where students will explore the principles of “green” design. Topics covered will include defining green design, evaluating source materials and products, and preparing a plan for identifying and researching potential green clients. Prerequisites: D107, D200, D116, G311.

D315 Computerized Construction Documents

(3.0 credit hrs., 40 clock hrs.) Students will explore the methodologies for turning an architectural designs into construction documents that can be used in the building industry, apply workflow strategies for efficient use of a BIM models and label building components using annotative elements to create sheet views. Students will produce a set of working drawings with annotations, detail callouts, and general notes using AutoCAD and REVIT. Prerequisites: D105, D115, D214

D316 3D Studio Max

(3.0 credit hrs., 40 clock hrs.) This course will teach the student the fundamentals of AutoCAD 3D modeling and animation rendering with Autodesk 3D Studio Max. Students will learn basic program operations, modifiers, lighting, camera, and animation application. Prerequisite: D214.

D317 Advanced Kitchen & Bath Design

(3.0 credit hrs., 40 clock hrs.) A continuation of D217, this course emphasizes more intricate designs with custom cabinetry and high-end fixtures. Students will develop drawings by hand and computer according to NKBA guidelines. This course will include application and installation of cabinetry, integration of fixtures and appliances, countertop and material options, and graphically detailed drawings including elevations, orthographics/isometrics and/or perspectives. Prerequisites: D213, D217.

D318 CAD IV

(3.0 credit hrs., 40 clock hrs.) This course will encourage the students to advance their digital design knowledge and improve their working skills in AutoCAD and Revit. This course will allow the student to further develop the concepts previously introduced to produce rendered floor-plans, elevations, 3-D drawings and expand their presentation

skills. Rendering techniques using lighting and materials will be applied to projects. Various computer programs, such as Adobe Suites will be used to create and further develop visual presentations. Prerequisite: D214

D319 Advanced Commercial Design

(3.0 credit hrs., 40 clock hrs.) This class is a continuation of D108 Commercial Design. In this class students will complete their restaurant plan, incorporating information gleaned from the project critique at the end of D108. Students will finalize materials selections, develop support documents: elevations, perspectives, axonometrics. Students will then complete the course with a presentation that utilizes all the information collected and developed throughout the two sections. Prerequisites: D112, D115, D116, D200, D213, D214, D318.

D320 Advanced Window Treatment Design

(3.0 credit hrs., 40 clock hrs.) The course will advance students in the field of custom window treatments with design, calculations and construction techniques. Students will develop their knowledge of specialty window treatments, business skills and professional installation techniques. Prerequisite: D120

D321 Advanced Workplace Design

(3.0 credit hrs., 40 clock hrs.) This class is a continuation of D204 Workplace Design. In this class students will complete the design development of the project begun in D204 incorporating information gleaned from the project critique at the end of D204. Students will finalize the layout, materials selections, and develop support documents: elevations, perspectives, axonometrics. Students will then complete the course with a presentation that utilizes all the information collected and developed throughout the two sections. Prerequisites: D112, D115, D116, D204, D213, D214, D318.

D320 Healthcare Facilities I—Issues

(4.0 credit hrs., 40 clock hrs.) As an introduction to the fundamental details and issues in designing for the healthcare environment, this class addresses the impact design has on the quality and efficacy of care. Students will interact on issues related to long-term care, assisted living, ambulatory care, and the hospital environment and compare other countries' approaches to healthcare facilities and those of the United States. Prerequisite: D319 or Permission of Instructor.

D405 Portfolio Design

(3.0 credit hrs., 40 clock hrs.) This course will address the finer details of developing and presenting an advanced professional portfolio. Analog (paper) and digital (electronic) media, such as Adobe Suite will be considered. A focused and cohesive message is essential for a student's professional image development. Prerequisite: Senior status or permission of the instructor.

D410 Design Thesis I

(3.0 credit hrs., 40 clock hrs.) The student will develop a completed working program and completed floor plan of his/her selected thesis project. Extensive effort will be placed on developing a relevant and comprehensive program that the student will

ultimately use during the course and into Design Thesis II. Conceptual considerations will also be considered during this course and will ultimately develop into how the student's work will look and be perceived. Prerequisite: Senior status or permission of the instructor.

D412 Healthcare Facilities II—Design

(3.0 credit hrs., 40 clock hrs.) A continuation of Healthcare Facilities I, in which students will create designs based on the principles learned in *Issues* and insuring that the needs of the industry: better mobility, privacy, safety, and comfort for patients, staff, and visitors, are met. Prerequisites: D319, D320

D415 Design Thesis II

(3.0 credit hrs., 40 clock hrs.) This course will continue with the development of Design Thesis I. The student will come into this course with a completed working program and completed floor plan. The student will use all of his or her design skills to develop the design program and plans into an extensive visual and verbal presentation. The final presentation will be observed and critiqued by several knowledgeable industry professionals. Prerequisite: D410

Retail Management/Fashion Merchandising Courses

F101 Introduction to Retailing I

(4.0 credit hrs., 40 clock hrs.) Includes the nature and change in retail, planning and managing a retail institution, understanding marketing and retail customers, and competition. Prerequisite: None.

F102 Introduction to Retailing II

(4.0 credit hrs., 40 clock hrs.) Includes location analysis, merchandise buying, pricing, and the importance of customer service in retail. Prerequisite: F101.

F103 Merchandising Math

(4.0 credit hrs., 40 clock hrs.) Develops fundamentals of merchandising math, beginning with the basic skills of fractions, decimals, base, rate, and portion. The principles of markups and markdowns and the application of those to purchase orders, invoices and order forms. Prerequisite: None.

F104 Textiles I

(4.0 credit hrs., 40 clock hrs.) A study of the textile industry, including standards and legislation. Students will be introduced to terminology, fiber properties, yarns, and fabric characteristics. Emphasis is on the selection, quality, performance, and care of specific textiles, the latest fibers, yarns, and fabric technology. Fabric identification will be stressed. Prerequisite: None.

F105 Designer Studies

(2.0 credit hrs., 20 clock hrs.) The study of important historic and contemporary fashion designers and the contributions these individuals have made to the fashion industry. Prerequisite: None.

F106 Non-Textiles

(2.0 credit hrs., 20 clock hrs.) A survey course of leather, fur, gems, footwear, millinery, handbags, fine and costume jewelry, etc., with an emphasis on construction methods, quality, design and care. Prerequisite: None.

F107 Clothing and Design

(4.0 credit hrs., 40 clock hrs.) Aspects of clothing design as related to shape and form and the effect on wearer. Additional emphasis on construction details and related terminology. Prerequisite: None.

F110 History of Costume I

(4.0 credit hrs., 40 clock hrs.) Study of all periods of fashion from Egyptian and Classic eras through the Renaissance time period. Students study the effects of economic, social, political, and religious changes on apparel. Prerequisite: None.

F111 History of Costume II

(4.0 credit hrs., 40 clock hrs.) Study of periods of fashion from the Renaissance through the present. Prerequisite: F110.

F113 Visual Merchandising

(3.0 credit hrs., 40 clock hrs.) Studies basic principles and techniques used in visual merchandising and display. Includes practical experience through the execution of various types of display. Utilizes problem solving techniques, principles and elements of design, fixtures, props, signage, lighting, and mannequins. Prerequisite: None.

F114 Menswear

(2.0 credit hrs., 20 clock hrs.) Examines the unique aspects of the production, merchandising, and selling of menswear. Students study the various menswear markets, production, sizing, promotion, and retailing. Prerequisite: None.

F201 Fashion Selling & Management

(4.0 credit hrs., 40 clock hrs.) Addresses sales and management techniques & skills for managers, wholesalers, merchandisers, sales reps and associates with regard to the challenging and ever changing fashion retail environment. Prerequisite: F102.

F203 Retail Buying

(4.0 credit hrs., 40 clock hrs.) A practical analysis of the role of the buyer in department, specialty, chain, and discount stores. Course includes planning stocks; merchandise control systems, resource planning, import buying, advertising, and promotion. Course stresses analysis and application activities to sharpen retail decision-making and problem-solving skills. Prerequisites: F102, F103.

F205 Textiles II

(4.0 credit hrs., 40 clock hrs.) A continuation of Textiles I. Emphasis will be placed on analysis of fabrics, care and renovation of fabric, performance testing, textile laws and regulations, and fabric selection for interiors and apparel. Prerequisite: F104.

F207 Fashion Promotion

(3.0 credit hrs., 40 clock hrs.) Examination of integrated promotional activities utilized by a fashion promotion or special event coordinator. Fashion shows, advertising and promotions, in-store events. Includes the impact of social media communities and blogs on promotional activities. Prerequisite: F102.

F208 Fashion Forecasting

(4.0 credit hrs., 40 clock hrs.) Examines the social, psychological, economic, and communicative factors influencing consumers' fashion preferences and buying decisions. Analyzes principles and methods used to forecast fashion preferences and trends. Prerequisite: F102

F250 WWD MAGIC Convention (Las Vegas, NV)

(1.0-3.0 credit hrs., 10-30 clock hrs.) Students will travel to the MAGIC apparel and accessories convention for 2-3 days of seminars and presentations covering every aspect of the fashion industry. Students may take this course as an elective for 1.0-3.0 credit hours and course requirements will vary depending upon how many credit hours the student wishes to earn. Travel expenses will be incurred in addition to tuition costs. Students who do not need the elective hours may take the trip for the cost of travel expenses. Prerequisite: Permission from instructor.

F300 Understanding Dress in Contemporary Society

(4.0 credit hrs., 40 clock hrs.) Students examine the evolution of the fashion concept. Including how a new style is born, accepted by fashion leaders and a broader audience of consumers, and then discarded. Examines economic and psychological factors causing an individual to adopt or reject a style. Prerequisite: F102.

F315 Store Planning & Design

(3.0 credit hrs., 40 clock hrs.) An advanced course for the Retail Management/Fashion Merchandising students which provides an overview of store planning and design. The course will familiarize the student with basic skills in AUTOCAD. Critical to this process is an understanding of basic space planning issues, such as; allocation for fixtures, service areas, stock and non-selling activities. Prerequisite: F113, D113.

F320 20th Century Dress

(4.0 credit hrs., 40 clock hrs.) A comprehensive view of history of twentieth century dress in the United States, as it has developed in the context of tumultuous change. Prerequisite: F111.

F405 Social Constructs of Dress

(4.0 credit hrs., 40 clock hrs.) Explores the sociological, psychological and anthropological aspects of dress and adornment. Emphasis on the impact of fashion in the human process of defining individuals and cultures. Provides a framework for interpreting the meaning and use of dress. Prerequisite: F300.

F410 Advanced Retail Profitability and Analysis

(4.0 credit hrs., 40 clock hrs.) This course will teach students how to negotiate agreements and how to analyze each element presented in profitability reports. In the competitive retail environment these skills are essential. Prerequisite: F203.

F415 Apparel Product Development

(4.0 credit hrs., 40 clock hrs.) Examines the pre-production processes of apparel product development. Includes planning through forecasting, fabricating, developing silhouettes, specifications, and pricing to sourcing. Prerequisites: F102, F205.

F425 Apparel Product Development II

(4.0 credit hrs., 40 clock hrs.) A continuation of Apparel Product Development I, with emphasis is on the manufacturing and sourcing component of product development how to locate and source all components of a garment. Students will simulate the production of a fashion product from inception to finished product utilizing industry resources. Prerequisite: F415.

F430 Careers in Retail Management/Fashion Merchandising & Portfolio Development

(4.0 credit hrs., 40 clock hrs.) Examines the wide range of possible career choices and how each job relates to the industry as a whole. Students will learn the education and training required for various positions in the fashion retailing industry. A comprehensive approach to creating and updating portfolios specific to the fashion retail industry will be emphasized. Prerequisite: Senior status and retail experience or permission from instructor.

Graphic Design Courses

GD104 Form & Space (3-D)

(3.0 credit hours, 40 clock hours) Form and Space involves the formal understanding and manipulation of the basic organizing principles of the three dimensional world. Point, line, plane, mass, volume, density and form are discussed. Students learn to create and discuss 3-D situations using basic hand tools and readily available materials. Form and Space also involves the relationship of perceptual issues to manipulate the 3-D situation. Prereq: None

GD105 Design Fundamentals (2-D)

(3.0 credit hours, 40 clock hours) The creative process is introduced using the visual elements of art to provide the student with a firm, workable foundation in design. This class is fundamental in learning how to make appropriate design decisions while organizing visual space. A variety of concepts, materials, and techniques are used to investigate the aesthetic, scientific, and psychological properties of design. Prereq: None

GD110 Drawing I

(3.0 credit hours, 40 clock hours) Visual awareness is expanded through the observation and translation of three-dimensional forms into two-dimensional drawings.

Starting with simple forms and progressing to more complex organic forms, students will increase their skill levels in construction techniques, composition, and line quality.
Prereq: None

GD111 Drawing II

(3.0 credit hours, 40 clock hours) This course introduces the philosophy behind illustration, emphasizing conceptual visual problem solving and quick sketching methods to portray ideas. It also highlights the uses of illustration in the graphic design and advertising industries. Assignments will focus on black and white and color techniques, using contrast, values, composition and function. Prereq: GD110

GD112/G112 Perspective Drawing

(3.0 credit hours, 40 clock hours) Creating environments that are in perspective and understood by the viewer is one of the building blocks for creating great design & illustration. Starting with simple forms and progressing to more complex structured forms, students will increase their skill levels in techniques, composition, and line quality. Prereq: None

GD115/G115 Figure Drawing I

(3.0 credit hours, 40 clock hours) This course is a drawing class that builds on the basic drawing skills and concepts. Anatomical and proportional relationships of figure drawing will be covered. The general goals of this course are threefold: to give a firm grounding in the study of the 3-D human figure; to further develop drawing skills, techniques, and design concepts; and to use perspective as a tool for understanding complicated forms. Prereq: None

GD116 Figure Drawing II

(3.0 credit hours, 40 clock hours) This course continues figure drawing class that builds on the basic drawing skills and concepts. Anatomical and proportional relationships of figure drawing will be covered. The general goals of this course are threefold: to give a firm grounding in the study of the 3-D human figure; to further develop drawing skills, techniques, and design concepts; and to use perspective as a tool for understanding complicated forms. Prereq: GD115

GD120 Image Manipulation

(3.0 credit hours, 40 clock hours) This course is designed to examine photo-retouching and image manipulation using computers. Employing software applications to scan original artwork, photos, or public domain images. Students will use filtering capabilities, interactive brightness and contrast controls, and other image manipulation tools to enhance and retouch the images. Prereq: None

GD130 Color Theory

(3.0 credit hours, 40 clock hours) The creative process is introduced using the visual elements of both additive and subtractive color and the basic principles of design. The psychological and cultural aspects of color will be examined in making appropriate design decisions. Color concepts used in a variety of disciplines will be explored.

Students will be able to utilize the basic principles and elements of design theory as they apply to assigned projects. Prereq: None

GD150 History of Graphic Design & Illustration I

(4.0 credit hours, 40 clock hours) Examines the places, people, events; historical and cultural factors; and technological innovations that have influenced the development of graphic design & illustration as practiced from the beginning of time until the 21st century. Prereq: None

GD151 History of Graphic Design & Illustration II

(4.0 credit hours, 40 clock hours) Continues the examination of the places, people, events; historical and cultural factors; and technological innovations that have influenced the development of graphic design & illustration as practiced from the beginning of time until the 21st century. Prereq: GD150

GD175/G175 Digital Art Studio

(3.0 credit hours, 40 clock hours) Digital Art Studio introduces students to the most common graphic & illustration software programs and the hardware necessary. Students will learn to navigate through the operating system and will gain basic experience with drawing, photo-imaging and page-layout applications. This course concentrates on how to use various graphic software programs, techniques, and tools. Additional lab hours required. Prereq: None

GD180 Typography Traditional

(3.0 credit hours, 40 clock hours) Students are introduced to the history of type & the letterform. Relationships of letters, space, fonts, and type systems will be studied and applied. Students will style text and letterforms and incorporate type in compositions. This class is fundamental in learning how to make appropriate type and design decisions when organizing visual space. Prereq: None

GD181 Typography Hierarchy

(3.0 credit hours, 40 clock hours) Students will continue to work with computer-generated type in design applications. Creating typefaces, type arrangements, and typographic trends are used in the realization of these design solutions. Prereq: GD180

GD200 Graphic Symbolism I

(3.0 credit hours, 40 clock hours) This course examines the importance of graphic symbols in design. Logos and other symbolic images will be examined in historic and contemporary contexts. Graphic elements including typography, simplified imagery, and abstract shapes will then be utilized to create individual logo designs and other symbolic images. Prereq: GD175

GD210 Package Design I

(3.0 credit hours, 40 clock hours) Exploration of the design process in package design and the challenges of adapting 2D designs to 3D forms, both simple and complex. Projects will explore materials, structure, aesthetics & production methods. Prereq: GD175

GD200 Corporate Identity I

(3.0 credit hours, 40 clock hours) Development of comprehensive corporate identity systems, graphic standards manuals as well as additional business collateral. Prereq: GD175

GD230 Publication Design I

(3.0 credit hours, 40 clock hours) Focus on creating publications: with emphasis on hierarchy, grid, page sequence and spreads. The publication will integrate images, color, texture and typography relative to the subject of the publication. Prereq: GD175

GD240 Mixed Media I

(3.0 credit hours, 40 clock hours) In this course, students translate narrative content into visual imagery through illustrative solutions that explore various mediums. Prereq: None

GD242 Black & White Illustration

(3.0 credit hours, 40 clock hours) Students will experiment with methods and materials used to create striking black and white illustrations, Making use of materials such as ink with brush, dip pen, washes, and eye-dropper; stipple with technical pen; acrylic and gouache painting; blockprints; scratchboard & beyond. Prereq: None

GD250 Advertising Design I

(3.0 credit hours, 40 clock hours) This course is the basic introduction to advertising, its history, potential, and limitations. Students examine various definitions of advertising and different methods of communication, as well as promotional, business to business, business to consumer and even guerrilla techniques employed by the hero of the advertising industry. Prereq: GD175

GD260 Digital Illustration I

(3.0 credit hours, 40 clock hours) This course advances the student's understanding of the computer as an artist tool. Building on previous courses in drawing, concept development and introductory computer aided design, students will be asked to generate a number of expressive solutions that address specific illustrative problems, both technical and creative. As part of this course, students will be given the opportunity to develop their digital illustration skills by exploring numerous tools and techniques to obtain desired results. Prereq: GD175

GD270 Editorial Illustration I

(3.0 credit hours, 40 clock hours) In this course, students translate narrative content into visual conceptual imagery through illustrative solutions. These illustrations are then incorporated into page layouts, and other publication design formats. Students research visual solutions and explore appropriate media, imagery, and style—to interpret the author's point-of-view. Prereq: GD175

GD280 Studio Painting I

(3.0 credit hours, 40 clock hours) An introduction to oil & acrylic painting from still-life objects, with emphasis on technique and the effective use of color. Composition and drawing will be stressed as they relate to painting. Additional studio hours required. Prereq: None

GD290 Portfolio I

(3.0 credit hours, 40 clock hours) This course prepares students for the transition to the professional world. This course will prepare students for the industry by helping them compile a portfolio that is both digital and traditional in its presentation. Students will demonstrate their conceptual, design, craftsmanship, and other skills as they assemble and refine their portfolio projects. Working individually with an instructor, each student will select representative projects showcasing work that reflects a unique style and developing them further as needed. Particular emphasis is placed on identifying short-term and long-term professional employment goals, industry and professional related resources and portfolio development strategies. Prereq: GD175

GD300 Production & Specialty Printing

(3.0 credit hours, 40 clock hours) This course prepares students in the electronic preparation of simple designs. Image reproduction, color specification, file preparation procedures, and binding and finishing techniques will be explored. Discussion of various printing processes and paper selections are covered in this class. Prereq: None

GD301 Promotional Design

(3.0 credit hours, 40 clock hours) The role of graphic design in collateral materials, such as brochures, billboards, posters, point of sale materials, direct mail pieces, sales promotion materials, etc., will be introduced and explored. Prereq: GD175

GD310 Package Design II

(3.0 credit hours, 40 clock hours) Students will continue the exploration of the design process in creating the packages necessary to contain and sell a product. Package design and the challenges of adapting 2D designs to 3D forms, both simple and complex. Prereq: GD210

GD315 Business of Graphic Design & Illustration

(4.0 credit hours, 40 clock hours) This course is structured to investigate the wide ranges of both traditional and emerging business topics and considerations, preparing students as they transition into a media and design profession. Concepts of professionalism, expected business needs, an understanding of self-marketing, proposals and project management, and intellectual property and contractual issues will be addressed. Prereq: None

GD317 3-D Rendering

(3.0 credit hours, 40 clock hours) This course focuses on the development of three-dimensional models for use in multimedia, industrial design, and character development. Creation of 3D objects and spatial environments will be studied, in

addition to photorealistic rendering, texture mapping and lighting techniques. Additional studio lab hours required. Prereq: GD175

GD318 3-D Animation

(3.0 credit hours, 40 clock hours) This course teaches the basic principles of animation and how to apply them to create the convincing illusion of motion. They will explore the concepts of acting, staging, and storytelling through the creation of a number of short animated projects. Additional lab hours required. Prereq: GD317

GD319 The Art of Persuasion

(3.0 credit hours, 40 clock hours) This course promotes illustration and design as a tool for persuasion and criticism. It examines, through historical and contemporary images (European and American propaganda from the '30s, protest posters from the '60s, the New York Times op-ed page during the '70s, and alternative comics today), the practice of making images that engage the outside world. Students are encouraged to debate current political, ecological and socio-cultural issues as they unfold in real time during the course of the semester. This is an advanced-level course. Students should anticipate intensive work outside of the classroom. Fulfills a 300-level IL elective. Prereq: GD151

GD320 Corporate Identity II

(3.0 credit hours, 40 clock hours) Continued research and development of comprehensive corporate identity systems, additional business collateral, and the creation of graphic standards manuals. Prereq: GD200

GD325 Graphics & Animation I

(3.0 credit hours, 40 clock hours) Use timeline animation in the development of graphics and the interactive interfaces and user experiences. Concept development and storyboarding will be essential. This course provides instruction in the use of still imagery, typography, sound, special effects, video and other digital media to create animated, motion graphic sequences. Additional lab hours required. Prereq: GD175

GD300 Publication Design II

(3.0 credit hours, 40 clock hours) This course will continue to focus on creating publications with the emphasis on interactivity. Prereq: GD230

GD305 Graphics & Animation II

(3.0 credit hours, 40 clock hours) Continues the development of creating imagery with typography, sound, and special effects in animation. Prereq: GD325

GD350 Advertising Design II

(3.0 credit hours, 40 clock hours) Students will be working side-by-side with local advertising, graphic design and promotional agencies to create real projects. Advertising strategies, concepts, and designs are developed in this continued study of the sales-driven marketplace. Print layouts and TV storyboards will be created based on market research. Prereq: GD250

GD360 Character Design

(3.0 credit hours, 40 clock hours) In this course students will explore the process of designing characters as well as the objects they possess. Through a series of projects that emphasize conceptual thinking and functional design, students will learn the problem solving skills used in design as a means of supporting a narrative. Full color works in variety of media will be critiqued on their clarity of vision and strength of presentation. Prereq: GD111, GD175

GD361 Storyboard & Composition

(3.0 credit hours, 40 clock hours) This course focuses on storytelling skills for time-based media. These include storyboarding conventions and techniques, the visual and auditory language of time-based media, design development, concept development, animatic, and story development. Storytelling is explored first with a traditional, "continuity style" approach, and subsequently with more experimental approaches. The principles and issues presented are relevant for animation, live-action, film, and video. The application of these principles to short animations is especially emphasized. Prereq: GD111, GD175

GD363 Background & Environment Illustration

(3.0 credit hours, 40 clock hours) Theory and practice of digital matte painting; exploration of creativity with emphasis on color, atmosphere and application of digital effects used for the creation of landscapes both real and imagined. Matte Painting concentrates on the aspect of background elements for visual effects and students will learn how to make realistic and dynamic backgrounds using photo references and digital painting techniques. Prereq: GD111, GD175

GD364 Sequential Illustration I

(3.0 credit hours, 40 clock hours) This course will focus on developing familiarity with the various forms of narrative and sequential illustration to include basic storyboarding, single and multi-panel comic strips, comic books, graphic novels, and web comics. Coursework will explore the design process, working methods, and creation of sequential and narrative illustrations. Discussions will focus on the historical development and current trends of visual storytelling as well as touch upon professional practices for cartoonists. Prereq: GD111, GD175

GD365 Picture Book Illustration

(3.0 credit hours, 40 clock hours) Students research illustrative trends and explore media for creating appropriate imagery that interprets an author's point-of-view. In this course, students translate narrative content into visually consistent imagery used to tell a story. Character studies are created to give the student a three-dimensional understanding of each of the various subjects—allowing each character to be drawn at any angle. Character consistency is required. Illustrative solutions are produced to be consistent throughout the book. These illustrative solutions are combined with the narrative into a page layout—book design—format. Prereq: GD111, GD175

GD366 Stage Design & Illustration

(3.0 credit hours, 40 clock hours) This course teaches the basic techniques and materials used in the painting of sets, props, and locations for the film and theater industry. Students will learn how to paint images for large-scale disposable backdrops and facades. Students also explore other types of art used in the theatrical setting, such as: faux process, miniatures and mat painting. Prereq: GD175, GD280

GD367 Representational Painting

(3.0 credit hours, 40 clock hours) This course introduces the student to the communicative possibilities of painting and enables students to create work in a thematic series. Students will learn to develop their painting methods and personal concepts, explore oil and water based media, and various techniques from both master and contemporary practitioners of realism. Prereq: GD280

GD370 Editorial Illustration II

(3.0 credit hours, 40 clock hours) Students will continue to expand their knowledge, refine and translate narrative content into visual conceptual imagery through illustrative solutions. These illustrations are then incorporated into page layouts, and other publication design formats. Students research visual solutions and explore appropriate media, imagery, and style—to interpret the author's point-of-view. Prereq: GD270

GD371 Visual Journalism

(3.0 credit hours, 40 clock hours) Observational drawing is the foundation for all work and study in visual journalism. In the tradition of the best visual reportage, students travel off campus and recording its people, music, social fabric, and urban landscape. This class blends experiences like musical assembly ensemble sessions, market and courtroom scenes. Students fill sketchbooks, expand to more finished pieces, and learn how to create art that literally moves. Prereq: GD175, G105

GD375 Technical Illustration

(3.0 credit hours, 40 clock hours) This course covers technical illustration as it applies to the technical publications industry. Emphasis is placed on visualization skills, technical document analysis, and illustration development. Projects progress from simple technical cut-away illustrations to organic medical subject matter. Prereq: None.

GD380 Studio Painting II

(3.0 credit hours, 40 clock hours) A continuation of GD280 with emphasis on concept development, then composition and color. Knowledge will be developed for future individual study. Additional studio hours required. Prereq: GD280

GD390 Conceptual Design I

(3.0 credit hours, 40 clock hours) This course will emphasize the conceptualization process of design and its function in solving given problems. The student will use creative problem solving and research techniques, specifically: problem identification, analysis, brainstorming and idea refinement. Prereq: GD175

GD391 Conceptual Design II

(3.0 credit hours, 40 clock hours) Through hands-on implementation of professional concepts, students continue to understand the designer's role in visualizing complex projects across multiple media. Students build upon professional design methods and strategies of problem solving as they learn to visualize dynamic ideas. Prereq: GD390

GD392 SciFi and Fantasy Illustration

(3.0 credit hours, 40 clock hours) This course will be a short introduction to Science Fiction and Fantasy illustration in the form they are most frequently seen--book covers. Subjects will include (besides the usual aliens, futuristic looking machinery, and dragons) materials and techniques, reference gathering, working with a manuscript, working with the paperback format, etc . . . The goal of the course is to familiarize the interested student with the means and methods of producing a realistic illustration of an unreal scene. Prereq: GD116

GD400 Art Direction

(3.0 credit hours, 40 clock hours) This course will examine the role of the art director in producing multi-faceted design projects. Working in teams, students will coordinate their creative efforts, from concept to finished output. By encouraging a team approach, the course will further enhance students' leadership, communications and negotiation skills. Prereq: GD390

GD450 Workshop with the Pros in Los Angeles, CA

(3.0 credit hours, 40 clock hours) Students will embark upon a journey to Los Angeles, California where they will work side-by-side with artisans who are creating working that is being produced for a full week. Many companies such as Mattel Toys, Rhythm & Hues, Dreamworks will inspire and highlight their visit. They will be given projects by the mentors to be reviewed upon a follow-up skype/facetime meeting. **Note: There will be additional fees for travel and lodging (approximately \$1200-1600) associated with this course that are NOT included in the course tuition.** Actual amounts will vary, depending upon cost of airline flights and lodging when the course is offered and students will be notified of the actual cost prior to enrollment in the course. Prereq: Senior status or permission of Department head.

GD460 Graphic Design Capstone

(3.0 credit hours, 40 clock hours) The goal of this course is to provide an opportunity to define, design, and execute a project of your own choosing, but approved by your professor. Evaluation is based on your ability to select an interesting topic, communicate your objectives in writing and presentations, to accurately gauge what resources are required to complete your chosen task, and your ability to execute your plan. Prereq: GD175, Senior status.

GD464 Sequential Illustration II

(3.0 credit hours, 40 clock hours) Sequential illustration is a mandatory prerequisite for advance Sequential. Students are expected to demonstrate knowledge of all the basic facets of visual storytelling. This class explores advanced aspects of drawing one's own narratives in long-form sequential art. The focus is on perfecting individual approaches

to media, color, lettering and formats. The students will explore current trends in the publishing marketplace relative to comics and graphic novels, develop and present professional portfolios and/or book proposals geared to the format, and synthesize various exercises and assignments into a final long-form project. Prereq: GD364

GD490 Portfolio II

(3.0 credit hours, 40 clock hours) This course continues to prepare students for entry-level employment within the industry by assisting them with the development and presentation of a graphic design portfolio that reflects the stated exit competencies. Students will demonstrate an advanced skill-set in areas such as process, conceptual thinking, design, web design, craftsmanship, and other skills, as projects are refined and assembled into a cohesive, comprehensive body of work. Particular emphasis will be placed on identifying short-term and long-term professional employment goals, industry and professional related resources and standards, portfolio development and presentation strategies. Prereq: GD175, Senior status.

Paralegal Studies Courses

LEG201 Legal Research and Writing I

(3.0 credit hrs., 40 clock hrs.) Introduction to the legal process and the function of research and writing. Techniques and methodology of research will be stressed. Students will learn to use the traditional law library to research both primary and secondary sources of law, and then will be introduced to electronic legal research. Prerequisites: G105 or B112.

LEG202 Legal Research and Writing II

(3.0 credit hrs., 40 clock hrs.) Students are required to research and draft advanced projects such as legal office memoranda, memoranda of law, and appellate documents. Prerequisite: LEG201.

LEG203 Civil Litigation

(4.0 credit hrs., 40 clock hrs.) Provides the student with comprehensive coverage of the procedures in civil litigation from the beginning of legal action to its final resolution. Students are required to draft various pleadings such as Complaints, Answers, and Interrogatories. Prerequisite: None.

LEG204 Wills/Trusts/Estates

(4.0 credit hrs., 40 clock hrs.) An introduction to the law of wills/trusts/estates with an overview of the tasks performed by lawyers and legal assistants in such representation. Students are required to draft various documents associated with this area of legal practice. Prerequisite: None.

LEG206 Family Law

(4.0 credit hrs., 40 clock hrs.) Covers basic law of matrimony, divorce, child custody, and related issues. Emphasis includes preparation of pleadings, petitions, affidavits, and settlement agreements. Prerequisite: None.

LEG207 Legal Ethics

(4.0 credit hrs., 40 clock hrs.) A study of the ethical issues and considerations related to legal professionals. Prerequisite: None.

LEG209 Personal Injury/Torts

(4.0 credit hrs., 40 clock hrs.) Includes the survey of the law of torts and the role of the paralegal in preparation and trial of a personal injury action, both as defendant and plaintiff. Prerequisite: None.

LEG210 Criminal Law

(4.0 credit hrs., 40 clock hrs.) An overview of the American Criminal Law system with coverage of current criminal statutes regarding specific crimes as well as the common defenses to those crimes. Emphasis is put on the elements necessary to prove the crimes. Prerequisite: None.

LEG212 Contract Law

(4.0 credit hrs., 40 clock hrs.) This course examines contract law by focusing on procedural as well as substantive aspects of the common law and the Uniform Commercial Code. Prerequisite: None.

LEG300 Employment Law

(4.0 credit hrs., 40 clock hrs.) An overview of the employment laws that impact and influence the workplace including laws regarding employment discrimination, disability discrimination and accommodation, employment leaves of absence, workplace harassment, etc. Prerequisite: LEG 212 or B110

LEG301 Criminal Procedure

(4.0 credit hrs., 40 clock hrs.) An overview of current criminal procedural rules and case law governing the arrest, trial, and sentencing process with emphasis on 4th, 5th, and 6th amendment rights. Prerequisite: LEG 210.

LEG302 Intellectual Property Law

(4.0 credit hrs., 40 clock hrs.) This course introduces students to the valuation of intellectual property assets including patents, trademarks, and copyrights including how to search for, legalize, and authenticate documents. Prerequisite: LEG 209 or LEG 212.

LEG305/G305 History of the United States Constitution

(4.0 credit hrs., 40 clock hrs.) This course concentrates on the history of the Constitution and the amendments to the constitution with emphasis on the application of the Bill of Rights to early American and modern society. The course may be taken by Paralegal Studies students as a legal (LEG) elective, but it does NOT qualify as a General Studies (G) elective. Students in all majors other than Paralegal Studies may take it as a General Studies elective. Prerequisite: None.

LEG308 Corporate Law

(4.0 credit hrs., 40 clock hrs.) Introduces the student to the law of various business forms, agency, corporate structure, bankruptcy, taxation, and related corporate legal issues. Prerequisite: LEG 212 or B110.

LEG309 Property Law

(4.0 credit hrs., 40 clock hrs.) This course acquaints students with the forms of real and personal property and the rights and duties associated with the ownership of each. It includes a study of estates and future interests as well as an overview of the process for conveyance of real estate. Prerequisite: LEG 204.

LEG310 Evidence

(4.0 credit hrs., 40 clock hrs.) This course is a study of the rules of civil and criminal evidence and the admissibility of such evidence in court. The student will learn how to distinguish between relevant and non-relevant evidence, hearsay, and exceptions to hearsay, and will learn to pose objections both at the time of trial, at depositions, and in answering discovery. Prerequisite: LEG 203.

LEG401 Legal Research & Writing III

(3.0 credit hrs., 40 clock hrs.) This course expands the student's knowledge of legal research by providing an intensive look at computerized legal research through various sources including online research software and other Internet sources. The student will use the computerized research to complete various research assignments and written legal documents. Prerequisite: B103, LEG202.

LEG405 Bankruptcy Law

(4.0 credit hrs., 40 clock hrs.) Course reviews the history of bankruptcy as well as examines issues of debtor relief, bankruptcy litigation, liquidation and claims and reorganization proceedings. Prerequisite: LEG308.

LEG410 Civil Litigation Clinic

(3.0 credit hrs., 50 clock hrs.) This senior level course is designed to allow the student to research, investigate and perform/observe various functions in civil litigation. Students will be required to view court cases and report on them, to create a "Civil Reference Guide" for themselves with such information as addresses, divisions information, contact names/numbers, etc. Students will have to prepare mock civil litigation materials as well as exhibits and other materials that could be used in a litigation setting. Students will meet with their peers and the instructor each week to discuss their findings and any questions that may arise. Prerequisite: Senior status or permission of the instructor.

General Studies Courses

G101 College Mathematics

(4.0 credit hrs., 40 clock hrs.) Students will learn mathematical skills such as solving simple equations, working with whole numbers, fractions, decimals, basic algebra, ratios, proportions and percentages. Prerequisite: None.

G102 Personal Development

(4.0 credit hrs., 40 clock hrs.) Emphasizes the principles of effective human behavior as they relate to the demands of everyday life. Includes the study of interpersonal relationships, stress and time management, personality traits, critical thinking, and problem solving. Students will take the *Myers-Briggs Type Indicator* personality test, fully analyze their results, and learn how different personality types interact most effectively. Prerequisite: None.

G105 English Composition

(4.0 credit hrs., 40 clock hrs.) Students will review grammar rules, sentence structure, syntax, and vocabulary through the production of college-level essays, compositions, and research papers. Proper citation of research sources will also be emphasized. Prerequisite: None.

G106 Contemporary Studies

(4.0 credit hrs., 40 clock hrs.) An investigation of global issues affecting our lives today. Financial, political, health, ethical, scientific, and cultural influences are explored and evaluated. Prerequisite: None.

G107 World Geography I: North & South America

(4.0 credit hrs., 40 clock hrs.) A survey of North and South America, including the Caribbean. Students will study the physical geography, culture and demographics of these regions. Major cities and topographical highlights will be emphasized. Prerequisite: None.

G108 World Geography II: Europe & Asia

(4.0 credit hrs., 40 clock hrs.) A survey of Europe and Asia. Students will study the physical geography, culture and demographics of these regions. Major cities and topographical highlights will be emphasized. Prerequisite: None.

G109 Art Appreciation

(4.0 credit hrs., 40 clock hrs.) An overview of popular works of art from Stone Age through the present. The meaning, purpose, and style of art are identified through lecture, discussion, and field trips. Prerequisite: None.

G111 Research Methods

(4.0 credit hrs., 40 clock hrs.) The student will engage in the research process by utilizing appropriate scholarly, peer reviewed literary sources. An emphasis will be placed on synthesizing materials, documenting sources, and appropriate citation styles.

The course will also introduce several research methodologies including library work internet sources, and educational data bases. Prerequisite: G105.

G112/GD112 Perspective Drawing

(3.0 credit hours, 40 clock hours) Creating environments that are in perspective and understood by the viewer is one of the building blocks for creating great design & illustration. Starting with simple forms and progressing to more complex structured forms, students will increase their skill levels in techniques, composition, and line quality. Students in all majors other than Graphic Design may take it as a General Studies course (G112).Prereq: None

G115/GD115 Figure Drawing I

(3.0 credit hours, 40 clock hours) This course is a drawing class that builds on the basic drawing skills and concepts. Anatomical and proportional relationships of figure drawing will be covered. The general goals of this course are threefold: to give a firm grounding in the study of the 3-D human figure; to further develop drawing skills, techniques, and design concepts; and to use perspective as a tool for understanding complicated forms. Students in all majors other than Graphic Design may take it as a General Studies course (G115).Prereq: None

G120 History of Western Civilization I

(4.0 credit hrs., 40 clock hrs.) This course is a survey that will concentrate on the major historical, political, cultural and sociological movements that have formed the basis of Western Civilization from its origins in Mesopotamia, its further development in the civilizations of Egypt and Greece and the founding and flowering of the Roman Empire. Prerequisite: None.

G121 History of Western Civilization II

(4.0 credit hrs., 40 clock hrs.) This course is a survey that will concentrate on the major historical, political, cultural and sociological movements that have formed the basis of Western Civilization from the founding of the Eastern Roman/Byzantine Empire, the decline and ultimate collapse of the Western Roman Empire, to the development of Western Europe in the Medieval/Feudal paradigm and the Renaissance. Prerequisite: None.

G130 Physical Science

(4.0 credit hrs., 40 clock hrs.) A survey course of the physical sciences--physics, chemistry, astronomy, meteorology, and geology. Prerequisite: None.

G175/GD175 Digital Art Studio

(3.0 credit hours, 40 clock hours) Digital Art Studio introduces students to the most common graphic & illustration software programs and the hardware necessary. Students will learn to navigate through the operating system and will gain basic experience with drawing, photo-imaging and page-layout applications. This course concentrates on how to use various graphic software programs, techniques, and tools. Additional lab hours required. Students in all majors other than Graphic Design and Interior Design may take it as a General Studies course (G175).Prereq: None

G201 Introduction to Philosophy

(4.0 credit hrs., 40 clock hrs.) This course is a comprehensive introduction to philosophy with emphasis on development of philosophical thinking skills. This course explores the major, traditional areas and topics of philosophy including logic, free will/determinism, ethics, political obligation, the nature of reality, knowledge, the existence of God, the meaning of life. Prerequisite: None.

G202 Public Speaking

(4.0 credit hrs., 40 clock hrs.) Students will research, prepare, and orally present topics for various audiences, including business meetings, humorous occasions, instructional settings, inspirational addresses, and persuasive techniques. Prerequisite: None.

G204 Contemporary Moral Problems (Ethics)

(4.0 credit hrs., 40 clock hrs.) Surveys the major types of ethical theories, such as consequentialist, non-consequentialist, and virtue-based theories, and applies these to a number of contemporary moral controversies such as abortion, euthanasia, capital punishment, healthcare, marriage and family, professional and business ethics, and the environment. Development of critical thinking skills is stressed. Prerequisite: None.

G205 Diversity Studies

(4.0 credit hrs., 40 clock hrs.) This course will explore the impact of “different” people in American society and how they can interact productively. Case studies will illustrate typical problems and search for solutions among a wide range of diversity: race, gender, age, disability, social cultures, religious beliefs, and lifestyles. Prerequisite: None.

G206 Human Sexuality

(4.0 credit hrs., 40 clock hrs.) An overview of topics such as sexual and reproductive anatomy, hormones and sexuality, sexually transmitted diseases, birth control, pregnancy and childbirth, gender identity and gender roles, sexual problems and therapy, and sexuality as a social concept Prerequisite: None.

G207 World Geography III: Africa, Middle East and South Pacific

(4.0 credit hrs., 40 clock hrs.) A survey of Africa, the Middle East, Asia and the South Pacific. Students will study the physical geography, culture and demographics of these regions. Major cities and topographical highlights will be emphasized. Prerequisite: None.

G208 English Composition II

(4.0 credit hrs., 40 clock hrs.) This course further instructs students how to write by having them analyze writing samples, both professional and student models. Topics will include the elements of narration, description, example, definition, comparison/contrast, process, classification/ division, causal analysis, and argumentation. Researching and documenting research papers will be emphasized. Prerequisite: G105.

G210 Logic

(4.0 credit hrs., 40 clock hrs.) An introduction to methods for critically evaluating, reasoning and constructing valid arguments with an emphasis on understanding, recognizing and applying syllogistic logic and modern symbolic logic. Course will also emphasize critical analysis through reading and interpreting argumentative essays. Prerequisite: None.

G215 Introduction to Literature

(4.0 credit hrs., 40 clock hrs.) A survey course in literature encompassing fiction, poetry, and drama. Stories range from classics to contemporary works from around the globe. Poems blend the old masters with newer voices. A rich array of plays will also be studied. Prerequisite: None.

G216 Psychology of Consumer Behavior

(4.0 credit hrs., 40 clock hrs.) This course investigates everyday economic and consumer behavior from mainly a psychological and social psychological perspective. The topics it covers encompass three core aspects: the 'rationality' or 'irrationality' of consumers and economic actors, the specific aspects of economic and consumer life, including managing personal finances, material possessions and shopping (ordinary and 'compulsive'), and the social and cultural influences, including materialistic values, money and happiness, and advertising. Prerequisite: None.

G305/LEG305 History of the United States Constitution

(4.0 credit hrs., 40 clock hrs.) This course concentrates on the history of the Constitution and the amendments to the constitution with emphasis on the application of the Bill of Rights to early American and modern society. The course may be taken by Paralegal Studies students as a legal elective (LEG305), but it does NOT qualify as a General Studies (G305) elective. Students in all majors other than Paralegal Studies may take it as a General Studies elective (G305). Prerequisite: None.

G311 Environmental Issues

(4.0 credit hrs., 40 clock hrs.) This course will cover topics that affect everyday living in the general population as well as the planet we inhabit. The resources that we use to survive will be discussed and the impending dangers facing these resources, such as pollution, toxins, diseases and so on will be analyzed. Methods for resolution to these dangers, control of them and management will be topics of discussion. Finally, how the government, world economic situation, and technology can and will effect these issues will be defined. Prerequisite: None.

G315 Psychology of Women

(4.0 credit hrs., 40 clock hrs.) This course examines the balance of cultural and biological similarities (and differences) between the genders, noting how these characteristics may affect issues of equality, and also how men and women behave towards one another. Prerequisite: None.

G320 Modern Social Problems

(4.0 credit hrs., 40 clock hrs.) This course examines how social structure and culture contribute to societal problems and their consequences. Students will analyze the forces that contribute to social problems and study strategies for action through programs, policies and other interventions. Topics will include global health and well-being concerns, issues in human diversity, problems of inequality and power, and problems of the modernization of society. Prerequisite: None.

Career Planning Courses

C100 Professional Protocol

(2.0 credit hrs., 20 clock hrs.) Designed to help students understand and demonstrate social and business etiquette in the following areas: introductions, handshakes, body language, technical etiquette and the use of e-mail, cellular telephones, and social media. Also covered is dining etiquette, the importance of “thank you” notes, and dress code.

C101 Career Orientation

(2.0 credit hrs., 20 clock hrs.) A preparation for professional employment. The course will focus on resume-building techniques, interviewing skills, and employer expectations.

C104 Surviving in the Workplace

(2.0 credit hrs., 20 clock hrs.) Introduction to important workplace issues and skills such as conflict management, team building communication, leadership, and decision-making. The course will strengthen professional effectiveness and personal satisfaction on the job.

C105 Internship/Externship (AAS students)

All students are encouraged to have either an internship or externship work experience. An *internship* is a program of on-the-job work experience *without remuneration*; an *externship* is a program of on-the-job work experience *with remuneration*. Each 30 working hours earns 1 credit hour. Students participating in an internship or externship must record a minimum of 30 working hours/1 credit hour and a maximum of 210 working hours/7 credit hours for any given quarter. Total intern/extern hours for any A.A.S. program may not exceed 7 credit hours.

C400 Internship/Externship (Bachelor’s Degree students)

All students are encouraged to have either an internship or externship work experience. An *internship* is a program of on-the-job work experience *without remuneration*; an *externship* is a program of on-the-job work experience *with remuneration*. Each 30 working hours earns 1 credit hour. Students participating in an internship or externship must record a minimum of 30 working hours/1 credit hours and a maximum of 420 working hours/14 credit hours for any given quarter. Total intern/extern hours for any bachelor’s degree program may not exceed 14 credit hours.

Student Rights & Responsibilities

Preface

Siba students have certain rights and responsibilities to themselves and the campus community.

A student's first responsibility is to learn. The college will do its best to provide relevant educational and career opportunities in the formal classroom setting and in less structured environments. It is the student's responsibility to make good use of these opportunities.

The student's second responsibility is that of citizenship in the Siba community. In many ways this responsibility is similar to the concept of citizenship in society at large, with the additional expectation that societal rights and responsibilities are reinforced through educational development. Of course, students are not exempt from federal, state, and local laws.

A student automatically accepts these rights and responsibilities as an agreement when he/she enrolls, and it is very important that everyone fully understands their meaning. If higher education is to be successful, it is necessary for both parties directly involved in the educational and developmental process—students and institution—to be familiar with the rights and responsibilities of and to one another. That is what this section of the *Catalog* is all about.

Attendance

The primary goal of the College is for a Siba graduate to be accepted into a professional environment where career advancement is likely. Many prospective employers will inquire about the student's attendance and on-time record prior to offering a position. Therefore, the following policies are established in order to promote responsible attendance and on-time habits:

- Daily attendance and on-time statistics are recorded for each student on a class-by-class basis and are monitored and evaluated on a weekly basis.
- Excessive absences may lead to dismissal or failure to graduate from the College. Details of probationary procedures will be discussed with any student placed on academic probation.
- Faculty members have the discretion to implement their own attendance policies which may be stricter than the college's. If that is the case, the policy will be included in the course syllabus.

If a student fails to attend a class for three weeks in a row, he/she will be administratively withdrawn from the class, notified in writing via his or her siba.edu email address, and his/her transcript will reflect a "W" (withdrawal) for that particular class. If a student fails to attend any classes for three consecutive weeks of instruction, he/she will be administratively withdrawn from the college, notified in writing via his or her siba.edu email address, and his/her transcript will reflect a "W" (withdrawal) for all classes he/she was enrolled in. In that event, the college's Refund Policy will apply.

Make-Up Work

Each instructor will include his/her policy regarding make-up work in the course syllabus. Generally speaking, it is the college's philosophy to assist students in making up missed work when justified. Students are responsible, however, with communicating their need to complete missed work with both instructors and the Academic Dean, and for completing the work in a timely manner.

Student Rights

No student shall be denied any educational or social opportunities at Siba because of age, sex, color, religion, national origin, citizenship, disability, or any other legally protected characteristic.

All students have the right to receive adequate and competent instruction, advisement and career services, and access to classroom and laboratory facilities. To this end, the college shall provide appropriate learning opportunities on campus and, when applicable, through internships/externships, field trips, and special projects off campus, as outlined in the curriculum offered by the college.

Governance and Discipline

The governance and discipline of students is ultimately administered by the President. Stevens-The Institute of Business & Arts maintains the right to dismiss or suspend students for reasons that the President deems to be in the best interests of the college. Students or student organizations whose conduct on or off campus is damaging to the special interests of the college and its students may expect disciplinary action.

In the development of responsible student conduct, disciplinary proceedings play a role secondary to example and guidance. At the same time, however, the college has the duty and corollary disciplinary powers to protect its educational environment. When disciplinary action must be taken, adequate procedures and safeguards are followed both to protect the individual student and to serve the best interests of the college community as a whole.

No disciplinary action shall be taken against a student without due process and notification. Procedural fairness is basic to the proper enforcement of the college's disciplinary codes. No disciplinary action shall be imposed unless accused students or student groups have the opportunity to know fully the nature of the evidence against them and to present evidence in their own defense. Students may not, however, be represented by legal counsel in a disciplinary action since the system itself is not a court of law.

Any student who believes that his/her rights as outlined have been violated should submit this assertion in writing, with any supporting documentation, to the President. Due process shall be observed and will result in a conference with the President or her designee (see below, *Appeals/Grievance Procedures*).

Student Code of Conduct

It is not expected that these policies will cover every situation that may arise on campus or between students. Therefore, should situations arise that are not covered in this *Catalog*, investigative and disciplinary action will be handled on an individual basis at the direction of the President or her designee.

The following sixteen areas of behavior are considered to be breaches of responsibility (violations of the Student Code of Conduct) for which a student may be held accountable and disciplinary action may be taken, up to and including expulsion.

Alcoholic Beverages and Drugs

The possession or use of alcoholic beverages and/or illegal drugs on campus or at college-sponsored activities is prohibited. This also includes any occasion when students are representing the college. Students on any school-related trip are considered to be representing the college from the time they leave the campus until they return to the campus.

Arson, False Fire Alarm, or Endangering the Safety of Others

Setting a fire or attempting to do so, setting off a false alarm, discharging or misusing fire-fighting equipment, participation in the unauthorized use of fire exits, or other actions on campus that endanger the safety of others are all breaches of responsibility.

Blocking Access

Sitting in stairwells inside buildings and on outside sidewalks or entrance areas in an

attempt to block pedestrian traffic are violations of acceptable student behavior.

Disruption of Privacy/Trespassing

Entering the room, office, or cubicle of another person without proper authorization is a violation.

Dishonesty

Any dishonesty, cheating, forgery, lying, or willfully taking advantage of another person are breaches of acceptable student conduct. This includes all violations relating to the wrongful use of credit cards and the writing of insufficient fund checks. Plagiarism and other forms of academic dishonesty are included. It is a violation to falsify records, documents, or ID cards.

Drugs

The illegal possession, use, dispensing, selling, or manufacture of narcotics, dangerous drugs, hallucinogens, or marijuana by students are violations of the Student Code of Conduct.

Felony Statement

Students who are formally charged with a felony by an off-campus law enforcement agency are subject to action by the college pending a review of the case by the President or such disciplinary committee as she may appoint.

Fireworks, Firearms, Weapons, and Explosives

No person is allowed to possess or ignite fireworks of any kind on campus at any time. Nor is anyone allowed to possess or discharge firearms or explosives of any kind on campus at any time. No person is allowed to possess weapons of any kind on campus. This includes but is not limited to firearms (both functional and antique), other lethal weapons, knives with blades over 3" long, bows and arrows, pellet or BB guns, or any hazardous projectile.

Gambling

Illegal gambling of any form is unacceptable behavior.

Harassment, Physical or Psychological Coercion, Disrespect, or Personal Theft

All of the following constitute breaches of responsibility: harassment, coercion, personal threat, or disrespectful behavior directed toward students, faculty, or any other college personnel; deliberate injury to a person or the property of another person; any willful damage to the reputation or psychological well-being of another person; and encouragement of or participation in confrontations that result in fighting or physical violence.

Hazing

Hazing is strictly prohibited. Hazing means any action or situation that recklessly or intentionally endangers the mental or physical health or safety of students for the purpose of initiation or admission into, affiliation with, or acceptance by any formal organization or informal group of people operating with or without the sanction of the college. Enforcement of this code is not limited to on-campus incidents.

Human Sexuality

Siba stresses positive moral development and respect for human sexuality. Students are expected to use discretion in their human relations. Discretion is defined here as restraint in the presence of others and precludes public displays of affection and requires limited bodily contact in public areas.

Insubordination

Insubordination is the failure to submit to specific directives or notices of authorized Siba personnel acting within the scope of their employment responsibilities. Disruption or obstruction of teaching, research, administration, disciplinary proceedings, or other college activities are also referred to. Abusive behavior or language directed at college personnel or

others responsible for a specific activity or concern are also considered to be acts of insubordination.

Stealing

Taking or attempting to take the property of another person, or of the college, is stealing.

Vandalism

Deliberate or negligent destruction of, damage to, misuse of, or abuse or behavior that results in the damage or the destruction of the property of others or the college is considered to be an act of vandalism.

Violations Off-Campus

Behavior off-campus that places the good name of the college in jeopardy or behavior off-campus that causes situations of discord to occur on campus are considered violations of responsible student behavior.

Appeals/Grievance Procedures

If a student feels that he or she received an inappropriate grade, was wrongly placed on attendance or academic probation, was administratively withdrawn for no valid reason, was dropped from a class for excessive absences where extenuating circumstances exist, or was unfairly treated in any other way, an appeal or grievance may be filed as follows:

The student must submit a written appeal to the President within ten working days of the student's notification of the determination being appealed. The appeal should include the reasons the student believes the action being appealed was wrong or inappropriate. Within ten (10) working days of the receipt of a written appeal, the President (or her designee) will convene an Appeals Committee comprised of at least three of the following: the President, the Academic Dean, the Department Head of the program in which the complainant is enrolled, and one or more faculty members who are not personally involved with the issue on appeal. Once the committee is formed, they

will convene within another five (5) working days to:

- Review and assess the written appeal, at which time they may also interview the student, and will then determine whether the student's appeal should be granted.
- The Committee or the student may ask for input from other members of the faculty or staff or from other students.
- The Appeals Committee has the authority and responsibility for confirming, rejecting, or modifying the original action taken. The decision of the Appeals Committee is final and cannot be appealed.
- The student will be notified in writing of the outcome of the appeal by the President or her designee within five (5) working days of the appeals committee meeting.
- Students not satisfied with results of the Siba Appeal Process may pursue further resolution of complaints through the following agencies:

Siba Dress Code

Siba believes that it is essential for the fulfillment of our mission that our students be noticed in a positive and professional manner, and that it is important for our students to appear well-groomed and appropriately dressed at all times while on campus.

Faculty and administration are here to help you develop specific dress habits that enable you to express your individuality while staying within the general guidelines, and to advise or admonish you when you fail to comply with the Dress Code.

Students who fail to comply with the dress code may be dismissed from that day's classes and/or sent home to change into proper attire. Repeat offenders will be considered "insubordinate" under the Student Code of Conduct (See page 54 of the *Catalog*) and thus be subject to disciplinary action which may include suspension or even expulsion.

Footwear:

- Rubber flip-flops, house shoes/slippers, and "slides" are NOT allowed.

Clothing:

- No tank tops, muscle shirts, halter tops or halter dresses, strapless dresses, tube tops, or dresses/tops with "spaghetti straps." All of these garments, if worn, must be worn with a sweater, shirt or jacket over them.
- Sheer leggings (meaning any leggings where skin or undergarments can also be seen) should only be worn with dresses or skirts that are long enough to reach mid-thigh. If a top/dress is too short to wear with tights or nylons, it's also too short to wear with sheer leggings.
- No sleepwear, pajama bottoms, or anything that looks like pajama bottoms are allowed.
- Both men and women may wear shorts ONLY if they are long, meaning they touch some part of the knee. If you wear short shorts (above the knee) to school, you will be sent home immediately.
- Women's skirts and dresses should be no shorter than mid-thigh.
- Men's pants need to be worn at the waist/hips—saggy pants that display underwear are prohibited.
- Midriffs and cleavage should be covered.
- Sheer clothing should only be worn with proper foundation garments.
- Any clothing or accessory that contains a symbol, picture, or language that would likely be offensive to someone of a particular race, religion, gender, sexual orientation, ethnicity, age, or body type is prohibited. Also prohibited are any garments that contain depictions or language that could be construed as profane, vulgar, and/or sexually explicit.
- If you have doubts about a garment or outfit, DON'T WEAR IT! Remember you are here to make the best impression possible on all of your instructors, administrators, and classmates. The people who make the best impression get the best jobs, and how you present your appearance plays a part in the impression you make.

Revised 9/16

LOCATION/FACILITIES/CAMPUS

COMMONS

The Commons area on the first floor is a place where students are encouraged to socialize, eat, and study. It is for the exclusive use of Siba students, faculty and staff. Loud noise and unprofessional conversation are not appropriate. Students are expected to dispose of their own trash and leave the tables and chairs they have used clean and free of spills or food.

FOOD

Various local restaurants provide convenient, reasonable dining options for students. Vending machines, located in the Basement near the elevator, are accessible during all hours that the campus is open. A wide range of snacks and drinks are available.

All foods and/or beverages must be consumed in the Commons. Foods and drinks are not allowed in classrooms, hallways, studios, the library or computer labs.

CAMPUS

Siba takes pride in the new facility and equipment provided for students and seeks the cooperation of students in keeping classrooms, common areas, and equipment in excellent condition. Please report any noticed waste, spills, damage, destruction, or theft to college personnel. The campus is defined as 1521 Washington Avenue.

LIBRARY

There are three (3) library/resource areas on campus: 1) The legal and fashion Library in on the 4th floor; 2) The interior design resource library is located on the 3rd floor; and there are several computer terminals on level B designated for internet research. All periodicals and reference materials are to be used on campus, unless special arrangements are made between the student and the librarian or a department head to check-out a particular resource. All students are given a password to conduct online research with ProQuest, an extensive database of newspapers, periodicals and scholarly journals that they may use on or off campus, 24 hours per day.

Located three blocks from the Siba campus is the main branch of the St. Louis Public Library. This library, with over 3.9 million books and reference materials, provides substance and environment for enhancing academic research as well as personal enrichment. Open Monday - Saturday, the library provides a remarkable resource for Siba curricula and programs. Siba will assist all students in obtaining a library card for their personal check-out use. Students will be solely responsible for any materials checked out and for observing all library rules.

PARKING

Daily and monthly parking rates are available in several lots close to the College. Students are expected to abide by the parking regulations of the various lots.

SECURITY

Security should be a concern of everyone's no matter where they are. The Siba administration assigns a very high priority to the safety of students, staff and faculty. The college's downtown location is exciting, heavily trafficked, and offers easy access to endless cultural, sports and recreational activities. Students are encouraged to exercise caution and good judgment at all times, and to report anything out of the ordinary to a staff or faculty member.

VISITORS

Many company representatives, members of the professional community, and prospective students and their families frequently visit the Siba campus. We enjoy and encourage visitors to see our facilities and meet faculty and staff. However, all visitors need to be registered and issued a *Visitor's Pass*. A *Visitor's Pass* should be arranged through the Office of the President or the Front Desk, preferably before the arrival of the visitor.

EMERGENCIES

In an emergency, the President, Academic Dean, Financial Aid Director, or Operations Administrator should be notified immediately. In the event the police or fire departments must be notified, the President or her designee will make the decision.

The following guidelines are to be used for the emergency at hand.

Bomb Threats

The person receiving a bomb threat should report it immediately to the President or Academic Dean. If it is decided to evacuate the building and notify the police, the fire alarm for the building will be activated. Normal fire evacuation procedures and routes will be followed as posted at appropriate exits.

Armed Intruder

You should only exit the building if you feel you are safely able to do so and feel that is your best option. If you are in a classroom or office, turn out the lights, lock and/or barricade the door, and silence all mobile devices. If in an open area, take cover where you can (e.g. behind furniture or file cabinets). If you are able, quickly dial 911. Stay away from all windows, try to remain quiet and calm, and wait for police to instruct you to evacuate. When evacuating the building, make sure your hands are visible at all times.

Earthquakes

Earthquakes and their aftershocks most often occur without warning. If earth tremors are felt, do not wait to be escorted to a protected area. If possible go to an inside hallway or get under a desk, table, or doorway. Kneel to the ground protecting the back of your head with your arms. If outside, lie down or crouch to the ground protecting your head with your arms, and stay clear of all buildings and power lines. Do not smoke. Most importantly, do not move around until the "all clear" is announced.

Fires

If flames or smoke are observed, pull the fire alarm. Extinguish the fire only if you can do so safely and quickly. The President or Academic Dean should be notified immediately. The building should be evacuated using the stairs any time the alarm is activated. All occupants are to proceed to the designated meeting area: the northeast corner of Lucas and 16th Street. The President or Academic Dean is responsible for clearing the building and checking each floor to assure that no one is still in the building. Evacuation will proceed as posted at the nearest appropriate exit. After the fire alarm is turned off, the occupants will be escorted back into the building by the President or Academic Dean. Any student who leaves the area is to notify the President or Academic Dean prior to leaving.

Injuries/Medical Emergencies

If any person in the campus community is injured or has a medical emergency, notify the Reception Desk. If medical attention is warranted and the person can be safely moved, the President or her designee is responsible for seeing that the injured person is transported to the Emergency Room of a hospital. If the injured person cannot be safely moved, an ambulance will be called. In any case, as soon as practical, the President will be notified. Parents or guardians will be notified in case of serious medical emergencies.

Tornadoes

When a tornado warning is issued, and after consultation with the President, the following procedures are to be used. Campus personnel will be notified by the President or her designee that a tornado warning is in effect and that a tornado has been seen in the area. Using the stairs, all occupants should report to the designated areas in the basement and wait until the crisis has passed.

If a tornado hits without warning and it is not possible to get to the basement, all occupants should go to rooms and corridors in the innermost part of the building. Close all doors, crouch near the floor, head down, protecting the back of your head with your arms. Occupants should stay away from any windows. The President or her designee will be responsible for notifying Siba occupants when the crisis has passed and they are permitted to return to their regular area of the building.

2017 Academic Calendar

Winter Quarter

Tuesday, January 17	Day and evening classes begin
Monday, February 20	President's Day (no classes)
Monday, March 27	Last day of the quarter
Tues, Mar 28-Thurs, Mar 30	Bad weather make-up days (if necessary)

Spring Quarter

Monday, April 10	Day and evening classes begin
Monday, May 29	Memorial Day (no classes)
Wednesday, June 14	Last day of the quarter
Thursday, June 15	Graduation

Summer Quarter

Monday, June 19	Day and evening classes begin
Mon, June 26-Thurs, July 6	Summer Break (no classes)
Monday, July 10	Summer classes resume
Monday, September 4	Labor Day (no classes)
Thursday, September 7	Last day of the quarter

Fall Quarter

Monday, October 2	Day and evening classes begin
Mon, Nov. 20-Thurs, Nov. 23	Thanksgiving Break (no classes)
Wednesday, December 13	Last day of the quarter
Thursday, December 14	Graduation

2018 Academic Calendar
